We Talk More ABOUT OUR

Prescription Department

Than any other Department of OUR Store.

It is because Prescription Business is our hobby. It is the one thing WE have been trying to make more perfect than another for the past eight years. How well we have succeeded is shown in our record of nearly 65,000 Prescriptions.

Confidence in THIS department can not be gained in a few weeks or months, but once gained it lasts as long as honest integrity lasts.

We think

WE have gained the confidence of our customers and friends during these eight years, and now that it is gained, we will try with fair treatment and honest prices to retain it.

We have never put in any Prescription "just as good," as is sometimes done. If we do not have in stock just what your Prescription calls for we tell you so frankly.

We Believe

This is one of the important factors of your confidence in our Prescription Department.
