Molalla.

Thanksgiving was duly observed by the Molalla people and the gobble of the turkey is not heard as often as of yore.

On Wednesday before Thanksgiving there was a very interesting exercise at the school house given by Prof. Coleman, Miss Slaver and the pupils, consisting of recitations, dialogues, etc.

Our school is progressing finely. Prof. Coleman has a class in penmanship that meets every Friday evening at the school house. The professor is a thorough penman. Those that can do so would certainly profit thereby to join his class.

As the close season for killing deer is near at hand those that enjoy hunting are taking the last hunt of the season. Deer seem to be more plentiful this fall than for several years past. It is stated by experienced hunters in this vicinity that cougar kill more deer in a course of a year than is killed by hunters. It is stated by those in a position to know that a full grown cougar will average a deer each week during the year and it is certainly the case judging from the signs seen in the mountains that cougar are increasing rather than diminishing. The cougar is a very shy animal and is rarely seen unless hunted by dogs trained for that purpose, and unless a bounty is offered for them they will in a few years almost annihilate our deer. They seem to prey almost exclusively on deer, and have no trouble apparently in slaying when they choose. They scarcely ever devour a deer entirely, feed only on the choice parts and leave the carcass to other animals.

The Molalla people have decided to have a Christmas tree this year. There will be a meeting in a short time to make the necessary arrangements.

M. Clifford has about given up his intended trip to California for the benefit of his health.

Mr. King's step-son and two daughters came out from Portland recently to spend Thanksgiving and visit the old home. The son, Mr. Tim, has only just returned from Alaska. He reports things booming at Skagway, where he has been at work. He expects to return in a short time.

John Bagby is still in the vicinity of Ofield. There seems to be some peculiar attraction for him up there, which is it John, cougar or the widow?

Otis Boyles and family, of Russellville, were visiting home folk recently.

Mrs. Boyles is having a porch built onto her dwelling.

Uncle Thomas Jackson has come to Portland to visit his son from Grant county, who is under the care of Dr. Brown. His malady is pronounced, bright's disease and is incurable.

It is reported that a party from Portland contemplates putting in a machine shop in the old Moody store building. A business of that kind might do something during the summer time.

Mr. Baxton and wife, of Foster Grove are visiting the latter's parents, Mr. and Mrs. O. Robbins.

There will be no pork packing establishment in our town this winter, so the farmers in this vicinity must either bacon their hogs or haul to Oregon City.

There has been some talk of building a telephone line from here to Oregon City or to Marquam and connect there to the line from Scotts mill to Silverton. It would be much better though to have a line direct to Oregon City than to have to transmit by the way of Salem. If any company would build a line from Oregon City to Willamette Falls, the people in this vicinity would subscribe liberally by donations and taking stock. Such a line would certainly pay during the summer season at least Molalla.

Clackamas.

In issue of November 18th, in mentioning the death of Mrs. Abigail Goodrich on November 31, you said that she left a husband and three children when, in fact, she left besides a husband, George Goodrich, the following five children: Mrs. Daniel Talbert, Joseph L., Charles L., George E. and Fred C. Goodrich. Charles works in Olds & King's store instead of Fred, as stated. She also left five grandchildren as follows: Mrs. Adaja P. Palmer, Minnie L. Goodridge, Frank L. Talbert, Bertha Talbert and Ruby P. Goodridge.

Highland.

Highland is still on top, though everything is quiet.

A shooting match was held at the Highland postoffice one day last week.

Mr. Geo. Harrington, recently from Eastern Oregon, is still visiting with his brothers, Albert and Ed.

The coyotes are making an onslaught on sheep occasionally. Albert Harrington lost three the other night.

Our enterprising neighbor, J. W. Jones, is running his sawmill in good shape now.

E. E. Elliott, a promising young man from Union county, is teaching our public school.

Our neighbors should have their minds refreshed to the fact that all the state asks or demands in return for the gift of free schools, is good boys and girls who will make good men and women, or in other words, good citizens, who will uphold and obey the laws of the land and teaching them to mind and obey the rules of the school is but the beginning of obeying the civil law.

According to statistics our criminals are increasing at an alarming rate. What is the cause of that? The answer is simple. Parents are neglecting their duties. As the twig is bent, the tree is inclined.

We Talk More ABOUT OUR Prescription Department

Than any other Department of OUR Store.

It is because Prescription Business is our hobby. It is the one thing WE have been trying to make more perfect than another for the past eight years. How well we have succeeded is shown in our record of nearly 65,000 Prescriptions.

Confidence in THIS department can not be gained in a few weeks or months, but once gained it lasts as long as honest integrity lasts.

We think

WE have gained the confidence of our customers and friends during these eight years, and now that it is gained, we will try with fair treatment and honest prices to retain it.

We have never put in any Prescription "just as good," as is sometimes done. If we do not have in stock just what your Prescription calls for we tell you so frankly.

We Believe

This is one of the important factors of your confidence in our Prescription Department.

C. G. Huntley, Prescription Druggist
