Even Sam and John Crader donned their Sunday clothes, regardless of rain and mud, and were seen tripping along toward the dance girls. Wonder why?

Blackburn Suit Reversed.

Some time ago a jury in the circuit court returned a verdict of two thousand dollars in favor of Mrs. Sarah A. Blackburn and against the Southern Pacific Railroad Company for damages sustained by reason of her husband having been run over and killed at the Singer Hill crossing a couple of years ago. On Monday the supreme court handed down a decision reversing the decision of the lower court. Follows is the gist of the decision: The controlling question is whether or not the lower court erred in overruling defendant's motion for a non-suit on the ground that the evidence showed that the proximate cause of the accident was the negligence of deceased in approaching the crossing without exercising due caution, for if he did not, the opinion says, plaintiff should not recover, though it was shown defendant's train was running at an unlawful rate of speed. It was shown that the view of an approaching train from the south was completely unobscured, and substantially so on the north, and as plaintiff did not bring his team to a standstill before attempting to cross, it is held that he did not exercise such care and prudence as the law requires, and that the motion for a non-suit should have been allowed. "It is unquestioned," says the opinion, "that negligence is generally a question of fact for the jury; but in actions for injuries at railway crossings, where, as in this case, the uncontradicted evidence shows the omission of a duty which the law requires of the traveler, it is the duty of the court to direct a verdict for the defendant.
