Big Fire in Montreal.

Montreal, Dec. 32 .- A fire broke out at 11:45 last night, completely gutting the big dry goods warehouse of S. Greenshield's Sons & Co., one of the largest dry goods houses in Canada. Half an hour after the fire started, the roof fell in, and 10 minutes later one of the walls fell out into Craig street and the other into McGill street. The fire wall separating the Greenshields building from the dry goods house of McIntyre Sons & Co. collapsed and the flames gutted the premises of that firm. RETURN OF THE PRESIDENT. PAID WITH THEIR OWN COIN Entire Party Satisfied With the Trip to

Washington, Dec. 22.-The presidential party, after an absence of seven days in the South, arrived at the Pennsylvania station over the Southern railway at 11:30 o'clock this morning, exactly on schedule time. With the exception of Mrs. McKinley, who was slightly indisposed at Atlanta, every member of the party has been in the best of health, and all pronounce the trip most enjoyable and a splendid success in every way. Everywhere a stop was made the president was received with greetings and demonstrations of an enthusiastic character, and during the entire week there was not a disturbance. The run from Columbia, S. C., was uneventful, and on its arrival here the special train of six Pullman rade, the central feature of which was cars, under the personal supervision a Spanish lieutenant, who was carried of General Agent Brown, was run up along the streets suspended from a the Sixth street siding, where all

MIGHT HAVE BOUGHT CUBA.

John Sherman Says Negotiations Were Once Under Way. Chicago, Dec. 22.-A special to the Tribune from Washington says: Secretary of States John Sherman, in an interview, tells an interesting cabinet secret, which in the days before the war was frequently suspected, but never established. With considerable

emotion, the ex-secretary said: "I tried to prevent this foolish war with Spain. As a matter of fact, negotiations were already in progress to purchase Cuba from Spain when the war feeling suddenly rose and swept everything before it. And Spain would have accepted the terms.

"This is a matter of secret history, And now what have we got to show for all this expense? Some islands in the Philippines, for instance, which are worth about \$200,000 per annum income; increased indebtedness of \$200,-000,000 and a lot of islands inhabited mainly by man-eaters. And the most distressing feature of the affair is that we are now about to be called upon to pay \$20,000,000 for territory that we could have taken without expending a dollar."

SHAFTER EXPLAINS.

Santiago Commander Before the War Commission

Washington, Dec. 22. - General Shafter appeared rather unexpectedly before the war investigating commission this afternoon, and told his story of the Santiago expedition. He was supported by his aid, Colonel Miley, who was with him in Cuba, and was flanked by a large portmanteau of papers, to which his aid occasionally ap-

plied for reference.

General Shafter's story of the operations around Santiago was tersely told, but at times was quite vivid in its recital and interesting in detail. Briefly summed up, his estimate of the Santiago expedition was that it had been a military success and cheap at the cost of 500 men lost in the fight. He considered the expedition to have been as well fitted out as the time allowed would permit, and said that, in looking back, he had no criticism of his plans to make, and would not change them if the events had to be gone through again. He said he had no complaints of any sort to make, and would be loath to intrude them at this time if he had.

From May 1 until the surrender of Manila, on August 1 last, the only means of communication between this city and the other ports in the Philippines was entirely cut off, since all coasting steamers were under the Spanish flag, and had to lie up dur-

in the blockade. With the advent of the American army of occupation it was hoped that trade would be resumed almost immediately, but in spite of the that arrangements have been made between the American and Spanish authorities toward this end, the fact remains that the interisland trade, which amounted annually to over \$500,000,000, has dwindled down to less than one-fifth of its normal volume.

MOVED A BRIDGE.

Remarkable Feat of Railway Engineers at Milwaukee.

Milwaukee, Wis., Dec. 21.-A remarkable feat of bridge moving was accomplished today by the Chicago & Northwestern Railway Company, under the direction of J. S. Robinson, division superintendent of the engineers of that road. The bridge was a single track draw, weighing 215 tons, and was removed a distance of 250 feet to a new foundation in the quick time of 2 hours and 57 minutes. The structure was floated on two scows, one on either side of the center, which were sunk 90,000 gallons of water. With the scows in proper position, the water was pumped out and the bridge gradually lifted from its foundation and towed to its new resting place by two tugs. The bridge had rendered service since 1880, and is still in good condition, being removed to make way for a double-track structure of the latest pat-

EXPANSION UPHELD.

Senator Platt Speaks Against the Vest Besolution

Washington, Dec. 21.-The senate had a busy day, and there were several important speeches. Platt of Connecticut, spoke against the Vest resolution, which declares that the United States has no power to acquire territory. He said that the power of a nation to acquire territory was as inherent as its sovereignty. The United States had the right to govern such territory in the best manner possible until the people of the acquired lands were capable of self-government.

Proctor of Vermont, and Hate of Maine, explained divergent views upon the subject of a commission of senators to visit Cuba. Proctor thought such committee was necessary, while Hale said he thought it would be in extremely bad taste, and useless.

The Nicaragua canal bill was up during the latter part of the day, and Senators Berry, Allen, Hoar, Caffery and Morgan discussed the measure.

This was suspension day in the house and several bills were passed, the most important of which was the bill appropriating \$350,000 for the Philadelphia exposition of 1899. The vote was exceedingly close; it had but two votes more than the necessary two-thirds. Bills were also passed under suspension of the rules to authorize the distribution of the assets of the Freedmen's bank; to enlarge the scope of the fish commission to include game birds; for the relief of the Fourth mounted Arkansas infantry, and for the relief of

He denounced the Republican who had instigated the statement as an infamous liar, and challenged him to father it. JAPAN IS SATISFIED.

Policy of Expansion Receives the Moral

Support of That Nation. Seattle, Wash., Dec. 21.—Commander I. Mori, who is on his way to San Francisco to take charge of the new Japanese cruiser Chitose, says the policy of expansion which has been adopted by the United States receives the most cordial moral support of the Japanese from sentimental and commercial

reasons. Commander Mori places Admiral Dewey in the same class with Admirals Ito and Nelson. "He is not only a great naval officer," said he, "but a general and a statesman." He did not know Admiral Dewey personally, but he saw the result of his work, having arrived at Manila in command of the cruiser Noniwa to look out for the Jap-

Commander Mori thinks a considerable portion of future contracts for warships will be let to American firms. One of the principal reasons of this, aside from the superior workmanship, will be because the United States is nearer to the home country, so that the vessels can be taken across the Pacific without the long voyage through the Suez canal or around the Cape of Good Hope.

A COLOMBIAN OUTRAGE.

Two Americans Unjustly Kept Under

Surveillance for Two Years. Los Angeles, Cal., Dec. 21.-Charles Nelson and H. K. Spring have just reached this city from the United States of Colombia, where for two years they were held under surveillance without being granted a trial, on a charge of having killed Jason Hubbard, August 27, 1896.

They are both from Colton, and went to South America and entered the employ of Hubbard, whose dead body was found on the date mentioned with a rifle by its side. It was thought that he had accidentally killed himself, but Nelson and Spring were arrested on suspicion, and imprisoned for 25 days, when they were released on bail. They could not leave the country, but on November 4 their bondsmen secured their release, and they at once started for home. There was no evidence to connect them with the death of Hub-

Gold in Pike's Peak.

Colorado Springs, Colo., Dec. 21 .- A strike of gold in the Strickler tunnel, being driven through Pike's Peak to increase the water supply of this city, has caused the most intense excitement in Colorado Springs. A splendid vein bearing large quantities of sylvanite has been encountered by the contractor, George W. Jackson, and samples from the find assay up into the thousands. Today pieces of the ore were roasted, and globules of gold were apparent in

the rock. The find is of importance to this city, as the riches will revert to the city of

Colorado Springs. Experts who have examined the property say that millions of dollars' worth of gold are contained in the vein en-
