Three high sounding words, used by "Jasper" in introducing himself to the public, have opened a new field of thought for the wags of Marquam. The all-absorbing question now is one greater than philosophy, science, politics or religion. It is one of the kind which would be hard to classify. It is "Who's Jasper and what could mean by such awful words?"

We noticed some time ago in the COURIER-HERALD a report of the grand jury, and amongst their reports was that they had investigated the Magistrate's Home at Parkplace and that they found it all right "so far as they were permitted to go." Now, Mr. Editor, or any one else, we would like to know by what right the grand jury had a right to make a thorough investigation of the same. To my mind, it sounds strange for the grand jury to say that so far as it was permitted to go, it was all right, and again it has aroused some of our curiosity and we would like to know just how far it was permitted to go. I do not say that there is anything wrong going on in that building, but I do think that the grand jury had a right to make a thorough investigation of it while it was permitted to do so. If it had the right to make a thorough one, will some one please give some light on the subject?  
January 11. ESTIE.

## STATE LEGISLATURE.

**Twentieth Biennial Session Begun at Salem Monday.**

### NOTES.

Kruse of Clackamas introduced a house joint resolution providing for the amendment of the constitution of the state so as to permit of the initiative and referendum method of legislation.

Brownell, in speaking of the attempted clerk-abuse reform, said he would like to support the resolution as far as the economy feature went, but he was willing to go on record as being in favor of the employment of many clerks, because the people of Clackamas county favored it. At a former session he had an office created in order that one of his constituents might occupy it, and that was used in the campaign against him, but yet he was elected, and he construed that as an endorsement for numerous clerks. He had promised the taxpayers of Clackamas county all the clerkships possible, and he was of the opinion that this was technical and narrow-minded economy after all. He would say frankly that the people of his county wanted jobs, and he appealed to the senators to defeat the resolution and not to be afraid of the newspapers.

Max Schulpus, of Oregon City, one of Commissioner Herman's forest rangers, was a candidate for sergeant-at-arms, but was not elected.

Charles Holstrom, of Parkplace, was appointed night watchman.

W. W. Smith, of Parkplace, is door-keeper of the senate.

Bills introduced by Brownell: To permit loaning of school fund at 6 per cent; to provide for two supreme court commissioners; by request—to require corporations to pay laborers weekly in money.

Brownell is chairman of railroad committee and member of judiciary and roads and highways committees.

Porter is chairman of public lands and member of educational committees.

## In Memory of Mrs. Mary Ogle.

The following communication was handed in for publication in honor of the memory of Mrs. Mary Ogle, whose death was announced in this paper last week.

The surviving husband and sons have the heartfelt sympathy of the community in which they live. Mrs. Ogle had been ailing for some time, but was believed to be getting better when the summons came so suddenly. The funeral was very largely attended, notwithstanding the stormy weather and almost impassable roads. At the request of the family, Mr. U'Ren conducted the funeral ceremonies, speaking very briefly at the casket. He spoke of Mrs. Ogle's long residence—of forty years in one community—and the universal love and esteem which she inspired, and voiced the hope that when our call to the higher and better life is heard, we may be able to leave our work as well done as the friend who has just passed on to the new birth. This occasion reminds us again of the question as old as the life of man: "If a man die, shall he live again?" and said that for every one who will diligently seek, the triumphant answer of the prophet shall be true. "I know that my Redeemer liveth and in the latter days he shall stand upon the earth." To those who have gained that plan of development from which Faith ennobles them to accept the promise of the Christ there is happiness beyond the power of words, but the loving Father has given his revelation equally to the children whose faith is weak. For them other proofs are provided, and it is true as promised, "Seek and ye shall find; knock and it shall be opened unto you." He dwelt especially upon the testimony of the wisest of all ages, that there is no death; and what seems so is but another birth to brighter and better spheres. The speaker's words were full of comfort to all those bereaved, who her taken from the standpoint of faith or reason, but it is beyond the writer's power to reproduce them. And so passed from our midst a noble mother whose memory shall never perish from the loving hearts of those who knew her.
