CLACKAMAS COUNTY NEWS

Furnished By Numerous Correspondents in the County.

Garfield.
We have been having some very cold weather out here near the foothills, but never too cold to have a crowded house at the Irwin school house. The debate and literary brings out old and young, not only from Garfield, but some come from Eagle Creek and Currinsville. The literary part is very good, also the paper called the Garfield Review. They have some excellent speaking, good music and singing, and sometimes a negro piece and a play mixed in the program to make it interesting. They intend to close it on the 25th with a side-splitting entertainment. The receipts will be used to buy a nice desk for the school house.

Carus.
There is a scarcity of news items this week, as it has been so cold that the newspaperer who goes around poking his nose into other people's business (and often when it is not wanted) was in danger of getting that officious member frozen.

I forgot to mention last week that Joe Eaton had a brand new baby—or, being more exact, to his wife was born a sweet boy baby, that is at once the joy and pride of its father, the comfort and desire of its mother.

There is strong talk here of the farmers organizing a joint stock company for the purpose of putting dynamo at some of the nearby water powers to enable us to light our houses with electricity.

Some of the residents here who are interested in roads think the Oregon City board of trade should invite a committee from Carus and Molalla whenever they are going to have any work done on the roads in and about Oregon City. The same parties think these should be standing committees, for the people out here are very modest and have not the gall that seems to characterize the aforesaid board of trade. One fellow remarked that when mother nature mixed up a batch to make an abnormally large steer she didn't put in more gall than some members of that board have in their composition. If the board were reciprocity individuals they would do as has been suggested—give us a chance to help untangle their great road problems. We have not the unlimited check to do it without being asked, but would most willingly help if we had an invite. One fellow said that the Oregon City board of trade (and others that don't amount to enough to make a decent sized splinter)—from the spindle shanked rib on clipping counter jumping speckled dude up to the voluptuous white-necked dandy of a lawyer—think they own the farmer and all his affairs. "But," says this indignant one, "we will learn them something," and I believe he meant it.

Well, you should come out and see the prosperity that is here! It has come in great waves—even in mighty billows—but the waves were too late. They failed to reach some unfortunate, and if they don't stop their waying and settle down to business long enough to centerize and stop the action of the mortgage cancer others are doomed. But do come and see us, but wait until the "spring breezes softly murmur through the trees," and the fan-tailed grouse and turtle dove pour forth their notes of ardent love. Don't come until the above named time, for the roads are horrible just now. S. C. W.

The Sandy Debating Society is getting to be very interesting as well as instructive. Last Saturday evening the house was crowded. The question up for debate was: "Resolved, That the credit system is a detriment to the country." E. T. Burns lead the affirmative and L. Huggum was the leader of the negative side. After a discussion that was getting to be a hot thing the judges decided in favor of the affirmative. The literary program that followed the debate was excellent.

We are glad to state that Mrs. G. Covey is recovering from the severe burn she received some time ago. She can now walk a little, but her foot will be quite sore for some time yet.
Last Saturday evening at the close of the exercises of the literary and debating society quite a large crowd of young people wended their way to the mill pond at Mr. Wagoner's. They built large bonfires and placed lanterns along the edge of the ice so they could have plenty of light, after which the young ladies and gentlemen scattered over the ice, making it very lively. Miss Sadie Barnett and Elmer Davis were considered the champions until John Irwin arrived with his fine skates; then he carried off the honors. One of the interesting features was a dance on the ice. Miss Lena Krigbaum and Elmer Davis, while taking a stroll on the ice, walked too near the edge, but lo! her gallant escort quickly fished her out of the water. I guess, however, she had pretty cold feet the balance of that evening. The sport was kept up until 12 o'clock and everybody had a good time. So you see the Garfield people enjoy themselves, despite the bad weather.

Garfield seems to be an attractive place for Theo. Shanklin of Currinsville. His smiling face is seen very often at our school house and he seems to have a preference for Lenora. That's right, Theodore; don't be bashful. REXIE.
