The American Line Being Strengthened by Sending Out Additional Troops-Heat Intense and Increasing.

Manila, Feb. 21.-The California volunteers abandoned Guadaloupe church at 5 o'clock this morning, which has since been set on fire, and retired Guadaloupe, Pasig and Patero, despite the efforts of the gunboats to dislodge them from the jungles on both sides of

The heat is intense, and is increasing The heat is intense, and is increasing perceptibly daily. Under present conditions, it is impossible to provide shade for the stroops in different parts of the line, particularly McArthur's division. King's brigade is also exposed from San Pedro Macati to Culiculi, where it joins Ovenshine's brigade.

In view of the fact that the enemy were concentrating on the American right preparations were made last night to give them a warm reception in the event of attack.

General Ovenshine's line, consisting originally of the North Dakota volunteers, the Fourteenth infantry, and two troops of the Fourth cavalry, stretching from the beach at Camp Dewey to General King's right, was reinforced by two battalions of Oregon volunteers and three troops of the Fourth cavairy, as

infantry.

The Buffalo's searchlight discovering the rebels unusually active about 10 o'clock in the evening, signaled the flagship for permission to fire upon them, and, this being granted, bombarded the enemy's trenches for 20 minutes. The only effect of the fire was apparently to drive the rebels fur-

Beyond a few ineffectual volleys from the trenches, which were returned with interest, the enemy made no demonstration, and all is quiet along the rest of the line.

Scouts claim to have seen General Pio del Pilar, who commanded the rebels at Paco, with his arm in a sling, directing the troops. General Montenegro, the insurgent commander-in-chief, is reported to be personally conducting the movements in front of General King's line at San Pedro Ma-

Guerrilla Tactics.

Manila, Feb. 21.-The enemy have apparently realized the hopelessness of attacking the American position, and are occupied chiefly by occasional sharpshooting from the jungle, when-ever feasible. Fortunately, their ignorance of the use of sights minimizes the effect of their guerilla tactics.

The retirement of General King's advance posts upon San Pedro Macati has evidently been construed by the rebels as a sign of weakness, as they pressed forward along both sides of the river, persistently harrassing the occupants of the town.

Last night the rebels poured volley after volley into San Pedro Macati from the brush on the adjacent ridge; but fortunately without effect. General King's headquarters in the center of the town was the target for scores of Remington and Mauser bullets.

The rebls are using smokeless powder, and it is extremely difficult to cate individual markemen.

RUSSIA AND CHINA.

First Rupture Occurred at Talien-Wan -300 Chinese Killed.

Peking, Feb. 21.-A serious conflict has taken place between the Rossians and Chinese at Talien-Wan, 800 of the latter being killed.

The trouble is said to have originated in a question of taxes.

Expected by Lord Beresford. Detroit, Mich., Feb. 21.-Admiral Charles Beresford was seen while passing through Detroit tonight in reference to the battle reported at Talien-Wan between Russians and Chinese. Lord Charles said that such a battle was only what he had been expecting for some time. Its effect, he believed, would be to shake the Chinese government more than anything that occurred, and he asserted that trade would also suffer as a result of it.

TAKES NEWS CALMLY. No Disorders in Paris Followed the Death of Faure.

Paris, Feb. 20. - Everything is quiet in Paris tonight. There is no danger of a coup d'etat. The favorite candidate for the presidency is M. Emile Loubet, now president of the senate. Still the ministers think Faure's death is a misfortune at the present juncture, and this is the conventional talk. They had all looked forward to his resigning, and they spoke today of the possible effect of his death on the

courts of Europe.

If M. Loubet be elected, European sovereigns would soon transfer to him their friendly regards. He is a good, unaffected, level-headed man of honest, open life, and of far more intellectual culture than poor Faure. He is an advocate and practiced at the Montilemar bar, in the department of the Drone. Montilemar is his native
