### Salt Rheum, Hands Would Crack Open

"I cannot say too much in praise of Hood's Sarsaparilla, as it has worked wonders in my case. I was afflicted with salt rheum on my hands for many years. I tried many remedies but did not obtain relief. My hands would crack open and bleed profusely and the pain was terrible to bear. Since taking Hood's Sarsaparilla the flesh has healed and my hands are as smooth as a farmer's hands could be. I have recommended Hood's Sarsaparilla to my friends, and as far as I can learn it has proved satisfactory."—LOYD B. CHASE, Potterville, Mass.

The captain of an Atlantic steamship was at a loss how to induce a passenger to desist from the filthy habit of spitting on deck. Among the passengers was a gentleman well known in Toronto 40 years ago, who undertook to stop him if a quartermaster were placed at his disposal. The captain closed with the offer, and the man was directed to fetch a bucket of water and a mop and to follow the offender up and down the deck. The result was completely satisfactory.

**Pulmonic.**  
A teacher in the sixth grade of one of our city schools finds time, now and then, in spite of the ten thousand and one things unknown to the school-ma'am of your youth which the modern teacher is expected to teach, to give her pupils a talk on current history. Recently she told them one day some interesting things about Queen Victoria and her family. Portraits cut from various magazines illustrated the talk. Among them was a picture of the Duke of York. The teacher held it up. No-body in the class could tell her who it was.

"Well," said she at last. "I will tell you who this gentleman is. He is the Duke of York. And now can any one tell me what he is?"  
Quick as a flash the hand of a little girl in the second row went up.  
"I can tell what he is, Miss Blank," she said, proudly. "He's the hear consumptive to the British throne."

**Naval Strength.**  
If it could be assumed that in all of the great international problems we should find ourselves standing shoulder to shoulder with Great Britain, a relatively small enlargement of these points of naval strength would be all that would be required on our part; but when it is taken into account that only two years ago we were on what many believed to be the verge of declaring war against England, it may not be safe to rest altogether on the assumption of an Anglo-Saxon alliance, and if we are to fill the role of a world power we must be prepared to manfully face the best of them, and this best, in naval strength and efficiency, is unquestionably Great Britain.

### MEDALS FOR HEROINES.

**Two Women of the Spanish War to be Rewarded by Congress.**

Two heroines of our late unpleasantry with Spain are to be rewarded for their memorable work by Congress. Miss Margaret Livingston Chanler and Miss Anna Boulligny will be presented with gold medals by special act of Congress in recognition of their work for ill and wounded soldiers in Porto Rico. If the recommendations of the war department are carried out.

The propriety of suitable recognition by Congress of the valuable work of these young women was first suggested by a letter from Col. Sharpe, of the commissary department of Porto Rico, to Col. Black of the engineer's corps. Col. Black sent Col. Sharpe's letter to the headquarters of the army with an endorsement in which he recited the services of Miss Chanler and Miss Boulligny.

Col. Black said that the young women landed from a transport on July 31 and at once began caring for the ill in Ponce. In connection with the Spanish Red Cross. Entire charge of the nursing was soon in their hands. Miss Chanler hired a house for use as a hospital. It was too small and she hired a larger one, to which she afterward added another. Misses Chanler and Boulligny remained until September 7, caring for officers and men with no assistance except that of untrained soldiers and Porto Rico servants. Trained nurses arrived on September 7, and the hospitals were turned over to them.

Gen. Miles forwarded the letter to the Secretary of War with a very appreciative endorsement, and Secretary Alger added his approval and sent it to Congress.

**Bench Bar**  
Detroit used to have a lawyer who was shrewd enough to show contempt of court without incurring danger of the penalty that would have been visited upon an offender less diplomatic. He was at one time being heard in an important matter before the Supreme Court, and made an assertion which elicited from one of the judges: "That is not the law, sir."  
"Pardon me, your honor," with a deferential bow, "it was the law until a minute ago. Now we accept a new principle established by a supreme authority."

On another occasion he was reading from an imposing looking book in support of a position that he had taken upon a legal question.  
"Just a moment," interrupted the supreme justice himself, "do you mean to say that you are reading good law?"  
"Not at all, your honor; only Supreme Court decisions."

The most cutting thing he ever said to this same court was during the consideration of a desperate case in which he had not a leg to stand on. He made a bold contention which was fallacious but plausible from beginning to end.  
"Blank," said the court, severely, "I would not try to convert the average justice of the peace with such an argument as that."  
"Nor I," was the quick response, "but I had what I considered reliable information, that none of the honorable members of this honorable court had ever served in that capacity."

"You have practiced before me for years, Blank," said a circuit judge at one time, "and this is the first time you have shown contempt."  
"Yes, your honor," answered Blank, "I have wonderful self-control"—Detroit Free Press.

"What was it?"  
"It was a scheme for a trolley line across the continent and he might have bought all the stock he wanted at 3 cents on the dollar, but he said no. He was afraid somebody would parallel it with an airship line about the time it was completed and thus make his stock worthless. What's the use trying to do anything for a man who is as timid as that?"—Chicago News.

### MR. JOHNSON'S GREAT STRENGTH

**And How He Developed the Power to Handle Thirty Tons Weight of Lumber Across a Saw Mill Floor Daily.**

M'INNIVILLE, Or.—Dear Dr. Darrin: Your electric and home treatment for the past few months has wrought almost a miracle on me. When I first came to you I was wholly unable to walk, troubles. I was wholly unable to walk. Now I am strong and hearty, and able to handle 30 tons weight of lumber across the sawmill floor every day. It is a wonderful and radical cure. I thank you with all my heart. I will stand by you and recommend you first, last and all the time. My mother (Mrs. M. A. Johnson), who formerly lived in Salem, Or., now here, has never had a return of her deafness of 12 years' standing, cured by you two years ago. Gratefully yours,  
CHARLES L. JOHNSON.

**Dr. Darrin's System of Treatment.**  
Electricity, the invention of the 19th century, is worthy the patient years of investigation and experiment that have been given to it by some of the ablest and most devoted votaries of science. Galvani, Volta, Humboldt, and others equally distinguished, spent years in studying the effects of this wonderful agent, and then Morse gave it a physical value in the invention of the telegraph. And now, as we have become familiar with the constant miracle of lightning, bending obedient to the slightest touch of man, we see a new wonder in its application. Dr. Darrin, who, by skillful mechanism, directs this subtle force to the destruction of disease and the building up of waning vitality. Dr. Darrin treats with electricity and medicines all curable chronic, acute and private diseases, blood taints, lost or failing manhood, nervous debility, effects of errors, or excesses, in old or young; loss of memory, diseases caused by mercury in the improper treatment of private diseases. Office, 235 Morrison street, Portland. Hours, 10 to 5 daily; evenings, 7 to 9. Sundays, 10 to 12. Consultation free and confidential; question blanks and circulars sent gratis to any address; patients cured at home. Batteries and belts furnished.

### Enlarged Prostate Cured.

The Base of Old Age No Longer To Be Dreaded.

**A Man Eighty-two Years of Age Cured in Dixie, Ark.**

One of the oldest and best known men in Perry County has the satisfaction of enjoying perfect health after suffering for more than fifteen years with chronic prostatic enlargement and inflammation, and will cheerfully tell anyone how he was cured.  
A Norwegian engineer has invented a process for producing paper glue, dressing gum and soap from seaweed.

**MR. H. L. TRUNDLE.**  
We want this to reach the eyes of every reader of this paper. Mr. H. L. Trundle, Dixie, Ark., is eighty-two years of age, as hale and hearty as any man in the South. He was born in Arkansas; in fact, he looks as young as a man of sixty years. For more than fifteen years Mr. Trundle was a slave to prostatic disease. You men who are afflicted know what it means—the days of unrest, the nights of torture and uneasiness, the pain, the frequent calls to pass water and the inability to do so. He could scarcely get about the house, feeble, trembling and racked with pain from head to foot.

In this condition he read the startling announcement in his paper that a marvelous new method for curing prostatic disease had been discovered. He wrote to the address given for full particulars, and at once obtained the remedy; in less than ten days more he had the satisfaction of experiencing relief. His case was chronic, deep-seated, and the chances of recovery on account of his age were against him. Yet sixty days of continuous use of the famous Solvent-Asterans method cured him.

You men who are afflicted can have the same experience if you do what Mr. Trundle did; he used Solvent-Asterans, a new-method treatment. It is described in two nicely written books which you can get free of charge, by mail, by sending your name and address to the Empire Medical Company, 315 M. South Building, Boston, Mass. It won't cost you a cent to get the information, and may be worth hundreds to you. Write today, and refer to this article.

**Our Policy of Territorial Expansion.**  
Extreme annexationists are advocating the addition of Canada to this country, and think it can be accomplished in a peaceful manner without exciting a quarrel with England. ### YOUNG AT SIXTY.

Serene comfort and happiness in advanced years are realized by comparatively few women.

Their hard lives, their liability to serious troubles on account of their peculiar organism and their profound ignorance concerning themselves, all combine to shorten the period of usefulness and fill their later years with suffering. Mrs. Pinkham has done much to make women strong. She has given advice to many that has shown them how to guard against disease and retain vigorous health in old age. From every corner of the earth there is constantly coming the most convincing statements from women, showing the efficacy of Lydia E. Pinkham's Vegetable Compound in overcoming female ills. Here is a letter from Mrs. J. C. Orms, of 220 Horner St., Johnston, Pa., which is earnest and straight to the point:  
"DEAR MRS. PINKHAM.—I feel it my duty to tell all suffering women that I think your remedies are wonderful. I had trouble with my head, dizzy spells and hot flashes. Feet and hands were cold, was very nervous, could not sleep well, had kidney trouble, pain in ovaries and congestion of the womb. Since taking your remedies I am better every way. My head trouble is all gone, have no pain in ovaries, and am cured of womb trouble. I can eat and sleep well and am gaining in flesh. I consider your medicine the best to be had for female troubles."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.
