SANTIAGO IN A FERMENT.

Withdrawal of Funds Puts a Stop to Public Improvements

Santiago de Cuba, March 6.-Beween 2,000 and 3,000 men have been suddenly thrown out of work in the province of Santiago, over 700 in the immediate neighborhood of this city. Although Governor-General Brooke has wired \$30,000 required for the February pay-roll, there is still a deficit of nearly \$20,000, and the orders from Havana still hold good limiting the expenditure during the month of March for the entire province to \$10,000. The effect of this order on Civil Governor Castillo, Mayor Bicardi and other Cubans prominent in official circles is

simply paralyzing. Groups of men on street corners, in clubs, cafes, et :, openly abuse the American administration, saying that the Spanish was infinitely preferable, as in the worst times during peace considerably more men were engaged on public works under the old regime than are now so employed.

The new regulations have brought to a standstill all the public improvements, including the dredging of the harbor, roadmaking and sewerage.
