

### NEWS OF THE WEEK

#### BRUTALLY TREATED.

##### Hair Pulled Out, Kicked and Scourged by Their Captors.

NEW YORK, May 25.—A dispatch to the Journal and Advertiser from Manila says: General Lawton is resting with 6000 men at Canadaba after 39 days of successful campaigning. He said to the Journal correspondent:

"It pained me when we got into San Isidro to see on the walls of the prison the names of the 15 Americans from the Yorktown. From Colonel Ray, the Spanish officer whom we rescued, I learned that one of the American prisoners escaped from his captors. His liberty was short lived, for he was recaptured. He was stretched on the ground before his fellow-prisoners and 20 lashes were given to him.

"We found a letter near San Isidro, written by one of the Yorktown's crew, saying that they were being kicked, that their hair was being pulled out and that they were cruelly treated in various other ways, and praying their fellow-countrymen to hurry to their release. The insurgents make a practice of murdering Chinamen who fall into their hands, and our men, I suppose, should consider themselves fortunate that they have not been similarly treated, though the cruelties and indignities heaped on them must be hard to bear. I would have advanced to Tarlac, but was informed that I was north of the insurgents' main forces. Hence I asked for Koppe's brigade. I can advance and reach Tarlac in six days unless the present negotiations between the Filipinos and our commission accomplish peace. The whole country is nothing but entrenched.

#### Sixty-Two Hundred..

NEW YORK, May 24.—A special to the Herald from Washington says: Adjutant-General Corbin has prepared a statement of the number of deaths which have occurred in the army since the beginning of the war with Spain:

In Cuba, 1399; in Porto Rico, 287; in Honolulu, 45; in the Philippines, 606; in the United States, 3872. Total, 6200.

#### Coming Home.

MANILA, May 25.—The Second Oregon and the Minnesota regiments have been sent back from General Lawton's front to the city in order to rest up and prepare for the homeward voyage, which will begin the first scheduled to leave after the California regiment gets off.

#### General Summers.

WASHINGTON, May 25.—The president has given orders to carry out the recommendations of Generals Otis and Lawton, making Colonel Summers, of the Second Oregon, a brevet brigadier-general of volunteers; also making Captain Case, of the engineer battalion, a major by brevet.

Is it possible! It is said that over 7,000 young working women go insane in New York and Brooklyn every year for want of sufficient food and clothing! The state board of lunacy so reports. The press of that city boasts—actually boasts and seems proud of it, that that city expends annually \$25,000,000 in charity upon its own poor! That kind of bragging is like the boy who boastingly declared, "we have have got a skunk under our barn."

It means merit proved, that Cascarets are the most delightful bowel regulator for everybody the year round. All druggists 10, 25, 50c a box, cure guaranteed.

#### NO CURE—NO PAY.

That is the way all druggists sell GROVE'S TASTELESS CHILL TONIC for Malaria, Chills and Fever. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer to bitter, name at drug tonics, Price, 50c.

#### Dewey Coming Home.

HONO KONG, May 24.—The entire city, officially and otherwise, gave Admiral Dewey a tremendous ovation today, which marks the beginning of demonstrations that will stretch half way around the world. All the British ships in the harbor boomed out the admiral's salute, and English jacksies manned the rigging and wildly cheered the hero of Manila.

#### Capt. Pickens Declines.

We, your committee on correspondence beg leave to submit the following report:

It being the desire of the members of the Auxiliary Relief corps to extend to Captain L. L. Pickens a public reception in recognition of his services to his country and to celebrate his safe return to home and friends.

Upon consultation with Captain Pickens with reference to the matter, he expressed a request that the reception be deferred until his comrades who are now hearing the burden and heat of the battle and sickness in Manila return to their homes and then he should feel highly honored to participate in a reception to all hands.

We, your committee, beg leave to report the above as the earnest wish of Captain Pickens and move you that the above report be adopted, and the heart felt congratulations of this relief corps be extended to him with a hope that he will soon recover big health and that we will all soon be able to join in the celebration of the return of the boys of Co. I and the establishment of American peace prosperity and supremacy in all the Philippines.

(Signed) W. E. CARRELL, H. L. KELLY, T. W. SULLIVAN, Committee on Correspondence.

#### Our Money System.

[Written for the Courier-Herald by Argus.]

The primary rules of arithmetic teaches that we cannot measure the concrete by the abstract; we could not take away 5 horses from 15, but we could take away 5 horses from 15 horses, and to measure concrete numbers they must be of the same nature; we cannot divide 15 horses by 5 cows, but we can divide 15 cows by 5 cows.

To measure length we must have a standard possessing length, and to measure weight we must have one possessing weight.

In measuring values we must likewise have a standard possessing value. I am aware that value itself is only an idea and is abstract, but like numbers, when applied to an object becomes concrete, and therefore, whether intrinsic or extraneous, the value of gold and silver is as real as any other idea, such as length, when applied to an object. The inherent qualities and limited productions are large factors in the value of gold and silver which may however be largely augmented by their legal status. But whatever be the nature of value, it is customary to speak of any commodity to which the term can be applied, as possessing value and as it is convenient and customary, there is no reasonable objection to speak of these money metals as possessing value just as we say a yard stick possesses length and iron possesses weight.

We must have something of value to measure values, and we could no more use a paper standard than we could measure the length of a house by a mathematical point, or something by nothing.

It does not follow that a country could not do without gold and silver. Canada has the gold standard without the gold, doing all her business, internal and external, practically with nothing but token money.

Other things have been discussed, metaphysically, as a basis of measure of values, such as an average value of our leading commodities, but it has not yet been possible to substitute anything for gold and silver that would make a real money sufficient for the world's progress and development.

It is of vital importance that we comprehend the fundamental difference between real or basic money and representative or credit money. A man worth say, one thousand dollars all told, could deposit the money in the bank and make checks on it for a thousand dollars but if he claimed to be worth two thousand dollars, 1000 gold and 1000 checks, you would say he was only fit for the lunatic asylum.

And yet this is the foolish way we reckon our per capita, so much gold, silver and uncovered paper. Gold advocates claim on the one hand that we have largely increased our per capita under the gold standard, and on the other that paper and silver are not money, but only credit substitutes for money.

The police of Havana will not permit meetings of the people for political discussion. The king of the United States prohibits the Cubans from talking. The Spaniards were not so bad after all.

#### The Second Oregon.

A Salem man writing home from Manila complains of a lack of recognition of the splendid services of the Oregon regiment by our people. There is no occasion for this. From one end of the state to the other the people are sounding their praise, and when they return home they will be satisfied with the genuineness of the appreciation for what they have done and the bravery displayed by them.—Albany Democrat.

P. V. Dieckman writes from Manila, on April 9, as follows: "I was sent here just a week ago today for dysentery. Five Company I boys, including the first sergeant, came down with Robt. Wilcox and myself, but I haven't heard how they are getting along. The officers get along all right; why shouldn't they drawing from \$125 per month and upward, according to their rank? While a private gets \$15.60 with "red horse" and hard tack to balance, and everything to do. He carries 260 rounds of ammunition, besides two days' rations, and if he don't carry it, though the heat may be 105 degrees in the shade, while going on double quick time, he goes without. And whenever a camp is established the men are shut in, while the officers go to will. If a private goes out he gets a \$15.00 fine and maybe the guard house. Here is an example: During the recent fight at Malabon, a man in my company was nearly exhausted, being of a weakly nature, and when the command, "forward, double time!" was given, he was rather slow in rising, so Col. Summers just gave him a gentle kick in the rear. And as I was going to say, whenever a camp is formed the officers provide for themselves, and in doing this they give their orderlies hell for not being more prompt and for not coming to "attention," when spoken to.—Roseburg Review.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidney, and to purify the blood. It gives strength, nerves, bright eyes, smooth, velvet skin, rich complexion. It will make a sallow-looking, charming woman of a run-down invalid. Only 50 cents at Geo. A. Harding's Drug Store.

#### His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened, I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.
