Molalla.

Once again sunshine has visited us, and all are busy finishing gardening. Some few are not done seeding but the majority are.

The Molalla people have been attending a series of entertainments for the past week which have been free, except last Saturday night, when a small admission fee was charged. The proprietor, Dr. Styner, of Portland, gave lectures, sold medicines, diagnosed diseases and gave treatment through electricity in connection with drugs. Whether or not it will amount to anything remains to be seen. He proposes to return here in September, and claims to be a graduate and has (so he says) a diploma from the Rush medical college, of Chicago, also a diploma from a Therapeutic electric institution. There is one thing about him; he can talk as though he had a mainspring like an old style Waterbury watch and was wound up for all time. He bills himself, "The Little Doctor." They go from here to Marquam. Some think that he knows it all while others brand him a humbug and a fake.

Molalla is improving some. Frank Adams has commenced building himself a house in town; Mrs. Clifford is having a new porch erected in front of the postoffice.

Mr. Whittington, our new blacksmith, and wife have moved into Mrs. Clifford's residence.

Mrs. King is preparing to move to Portland.

Holt & Wheeler who have spent the winter at their mines on the Santiam, are here on a visit. Mr. Holt received quite a severe injury by the premature explosion of a blast this winter. They are about to sell their claims on Gold creek to a New York company. It is going to be very late this season before miners can get late to the mountains, on account of snow.

Glad Tidings.

Socrates has come to life once more and Glad Tidings, the long dead city, has been excavated from its grave of despondency. Once more the voice of the Philosopher is heard within her walls, saying, "Oh! glorious sunshine, how we do enjoy thee after thing absence of many, many weeks." We have actually had three days sunshine, and a passing along the streets or public road will notice the old mossbacks hung upon the fence rails or street corners to dry. But among the many wonders discovered in the long lost city was some gigantic bones supposed to be those of Sinbad of whom Jasper once wrote.

The Rev. Mr. Shulse must have sighted from the wrong end of the compass needle when he stated in his notice that Glad Tidings was situated 3 miles south of Marquam. The Glad Tidings camp grounds are situated about 3 miles almost due northeast of Marquam. Perchance he was like the fellow who was going to shoot with the muzzle of his gun toward him. When asked why he did this he said he had tried it at the other end and it came near kicking his head off.

Old Socrates has been completely nonplussed since awakening from his long sleep; he cannot understand what has become of his noble friends, Jasper and Pat.

Campmeeting begins here June 23. They have a large church and one of the shadiest and best camp grounds in the county and fine spring water. Come, everybody.

The farmers of this vicinity are almost done seeding; potato planting will be next in order.

Hop men are considerable behind in their work but will pull through alright if the good weather continues.

The Rev. Mr. Shulse, of Marquam, who is to conduct the campmeeting at this place, is an interesting gentleman to listen to.

Both hops and grain look well considering the long, wet spring.

It looks as if we were going to be compelled to live on vegetables this year as fruit is almost a failure.

Stafford.

Married—Sunday noon, at the home of the bride's parents, Miss Anna Weisenborn to Mr. Charles Polivka, both of this neighborhood. Judge Ryan tied the knot. The groom would not be outdone or gotten ahead of by the judge in the kissing portion of the ceremony, he turning to his bride and giving her a rousing smack when the knot was but loosely drawn. But few guests were present outside of the family circle. A sumptuous repast had been prepared, in the center of which, of course, was the bride's cake, a beautiful golden cake with heavy frosting, two hands clasped and a beautiful bunch of flowers in its center. A few drops of rain fell as the knot was tied. "Knots tied with tongues that cannot be untied with teeth" sometimes cause the angels to weep. Anvils were discharged to greet the happy couple on their way. During the afternoon they walked arm in arm to the home of his parents, where they will reside. The boys gave them a call in the evening and were sent away feeling joyful.

Champion Unequal for Light Draft, Easy Handling and Durability

HIGHLAND, OREGON, Nov. 8, 1898.
Mitchell, Lewis & Staver Co.,
Portland, Oregon.

GENTLEMEN:—I desire to offer this as my testimonial in behalf of the 6-foot Champion Binder and Bundle Carrier purchased from you this year. For lightness in draft and ease of operation, simplicity in construction and durability, will say that no machine to my knowledge is its equal, nor near it. Having cut 150 acres of grain, the machine did not cause me five minutes' delay, consequently not a cent for repairs. All the Champion machines put in my neighborhood have given equally good satisfaction. In fact, I want no better machine than the Champion.

FRED SCHAFFER.

Cheerfully Recommends the Champion

HIGHLAND, October 25, 1898
Mitchell, Lewis & Staver Co.,
Portland, Oregon.

GENTLEMEN:—The Champion Binder bought of you the past season has given me good satisfaction, and am well pleased with it. We can cut grain that another make of machine would not handle. All the farmers we cut for are more than pleased with the work, and have promised us their entire cutting for another year. Can cheerfully recommend the New Champion Binder to my friends, acquaintances, and fellow farmers who expect to buy Binders in 1899.
