A wreck at sea is not the only place where a life line is of importance.

There is a life line for the sick, as well as for the drowning man. It is Dr. Pierce's Golden Medical Discovery. It is not a cure-all, but it is a scientific medicine that goes to the fountain head of a number of serious and fatal diseases. When a man gets seriously sick, he can generally be cured by the right course of treatment.

The treatment that cures many obstinate chronic diseases consists of pure air, good food, rational exercise, and the use of a remedy that will strengthen the weak stomach, correct the impaired digestion, invigorate the liver and promote the assimilation of the life-giving elements of the food. The "Golden Medical Discovery" accomplishes all these things.

"A young man lay pale and motionless upon what neighbors called his dying bed. Disease of the lungs, liver complaint, kidney trouble, and plenty were fast hastening him to the grave. The doctors had given him up to die. The neighbors said, 'he cannot live.' 'Oh, I would not care to die,' he said, 'were it not for leaving my dear wife and little child, but I know that I must die.' A brother had presented him with three bottles of medicine, but he had no faith in 'patent medicines'; but, after the doctors had given him up to die and he had banished every hope of recovery, he said to his wife, 'dear wife, I am going to die, there can be no harm now in taking that medicine. I will begin its use at once.' He did begin to use it and at first he grew worse, but soon there came a change. Slowly but surely he got better. To-day that man is strong and healthy and he owes his life to that medicine. What was the medicine? It was Dr. Pierce's Golden Medical Discovery, and I, Luther Martin, am the cured man. Dr. Pierce, I thank you from the very depth of my heart for rescuing me from the grave." The foregoing is from Luther Martin, Esq., a prominent citizen of Lubec, Wood Co., W. Va.
