## or Government Money.

At close of our Civil War in 1865, there appeared in the London Times the following:

come indurated down to a fixture, then that government will furnish its money without cost. It will have all the money that is necessary to carry on its trade and commerce. It will and large protruding lips, concealing become prosperous beyond precedent what little chin she possessed, gave her in the history of civilized nations of the world. The brain and wealth of all countries will go to North America. THAT GOVERNMENT MUST BE DESTROYED OR IT WILL DE-STROY EVERY MONARCHY ON

THIS GLOBE." The famous Hazzard circular, to \$1,500,000, were the agents that secured the closing of our mints against silver.

The "walk into my parlor" policy of England, during and since the Spanish War, is the latest evidence of English Diplomacy in shaping the destiny of the United States Government.

Notwithstanding the famine price of wheat, the Spanish War, and fabulous expenditures of money by our government during the past year, gold has increased in value eleven per cent. and all other values decreased in the same proportion.

For a thorough understanding of the money question, or silver issue, the Cincinnati Enquirer has uniformly given evidence of its ability to teach, explain and produce all facts and truth. It is a paper that ought and can be read by all classes with pleasure and profit.

The First John Jacob Astor.

Although Mr Astor had led a life mainly devoted to business interests, he found great pleasure in the society of literary men. says Mrs. Julia Ward Howe in The Atlantic. Dr Cogswell made his home with us for some years after the closing of his famous school. but finally went to reside with Mr. Astor, attracted partly by the latter's promise to endow a public library in the city of New York. This was accomplished after some delay, and the doctor was for many years director of the Astor library He used to relate some humorous anecdotes of excursions which he made with Mr. Astor In the course of one of these the two gentlemen took supper together at a hotel recently opened. Mr Astor remarked. "This man will never succeed.

"Why not?" inquired the other
"Don't you see," replied the financier. "what large lumps of sugar he puts in the sugar bowl?'

Once, as they were walking slowly to a pilotboat which the old gentleman had chartered for a trip down the har-bor. Dr. Cogswell said. "Mr Astor. I have just been calculating that this boat costs you 25 cents a minute." Mr Astor at once hastened his pace, reluctant to waste so much money

The fair mistress was in de-spair and in extremity asked her medical student admirer to try his skill on the pet He consented and took his father's messenger boy, who was used to the surgery, to apply the anæsthetic. The doctor made the amputation and was sewing up the flap beautifully. when the boy gave a vell and said th cat was dead It had been chloroform-
