

The Kingmaker.

The Earl of Warwick, commonly called the "kingmaker," from the faculty with which he created and deposed monarchs during the contest between the house of York and Lancaster, lived in style of magnificence and hospitality of which no period perhaps furnishes an example. No less than 80,000 persons are said to have lived at his board in the different manors and castles which he possessed, and the military, allured by his hospitality as well as his bravery, were strongly attached to his interests. This distinguished warrior fell at the battle of Barnet in 1471, when, owing to the mistake of one part of his army falling upon the other during a fog, he was defeated by Edward IV. In former battles Warwick had always fought on horseback, that he might at once ride along the line and perceive the particulars of the action, but on this occasion he determined to fight on foot, that his soldiers might see that he was resolved to share with them the dangers of the day. After having exerted himself as an officer and a hero in fruitless attempts to turn the tide of fortune in his favor he rushed into the hottest part of the battle and fell covered with wounds. His brother, Montacute, in endeavoring to save him met with a similar fate.—Nuggets.

Gold in Pyrites.

Experts in gold mining agree that pretty much the bottom fact now known about such metal is briefly that all original pyrites of small grain texture contain gold to a greater or less extent, this, of course, not covering such secondary large crystal pyrites deposits derived from veins. It is not yet known, however, whether the gold in these pyrites is in chemical combination with the sulphide of gold, or whether each minute particle of gold is simply covered with a coating of sulphide of iron, or finally whether such particles are in the metallic state, but alloyed with silver or other metal which combines more rapidly with sulphur than the gold does, and consequently forms a coat of sulphide of silver over the gold. The particles of gold are so minute and the combinations follow so rapidly during the splitting up of these pyrites that the finest instruments and tests known to chemistry have as yet been unable to settle this part of the question to the satisfaction of all concerned, this fact showing how easy it is to put in a mill that will not save the values.

Stupidity Rewarded.

This story is told of Sir Walter Scott, who was far from being a brilliant pupil at school: After he became famous he one day dropped into the old school to pay a visit to the scene of his former woes. The teacher was anxious to make a good impression on the writer and put the pupils through their lessons so as to show them to the best advantage. After awhile Scott said: "But which is the dunce? You have one surely. Show him to me."

The teacher called up a poor fellow who looked the picture of woe as he bashfully came toward the distinguished visitor. "Are you the dunce?" asked Scott. "Yes, sir," said the boy. "Well, my good fellow," said Scott, "here is a crown for you for keeping my place warm."

A Prime Political Reason.

It was in the Newton ward, where the candidate on the Liberal side was Mr. Ritchie, a well known confectioner and restaurateur, whose pies and rooks were equally famous in Auld Reekie. After the poll the following conversation was heard between two working-men who had just emerged from the voting station: "Weel, Tam, did ye vote for Ritchie?" "No," said the other, "I didna." "And what for no?" asked his astonished friend. "You're a Leebler, are na' ye, and Ritchie's the Leebler candidate?" "I ken that fine," retorted his companion imperturbably, "but I never could bear Ritchie's pies!" —New Century.

Salt Hay.

Salt hay is used in winter for coloring various kinds of plants that grow close to the earth. It has a long staple, and it serves this purpose well. Straw with long staple still is used for bundling up plants and shrubs having stalks. Salt hay is used in cemeteries to cover up ivy clad graves. The ivy is thus kept in better condition than if it were left exposed to the blasts and the cold of winter. The brown hay is laid lengthwise upon the grave in a covering of uniform thickness all over it, which is held in place by bent rods settled down upon it at intervals, hooplike, and with their ends in the ground on either side.

Political Wit.

The repartee of the political platform is frequently surpassed by the repartee of the crowd. Recently, at a Conservative meeting, a local politician "on the stump" declared, in vindication of his devotion to truth, that when a boy he had been thrashed by a mistaken father for telling it. It was an ill mannered Democrat in the body of the hall who briskly replied, "I guess it's cured yer, gunner!" —London Chronicle.

Forest Reserve Lands.

I want to buy cheap lands within the limits of any U. S. forest reservation. I don't care how worthless they may be, only titles must be perfect. Write at once, giving full particulars, to J. H. SHARP, Box 285, Duluth, Minnesota.

Death of Mrs. Prior.

Mrs. Richard Prior, who died last Monday after a lingering illness, was one of the best known and universally respected women in Oregon City. She was about 57 years old and a native of England. After living for a short time in Canada, Mr. and Mrs. Prior came here about 14 years ago, and have been continually in business here since that time. The funeral occurred from the Episcopal church Wednesday, the services being conducted by Rev. P. K. Hammond. The service both at the church and cemetery were largely attended. The deceased left besides her husband a son and daughter in London, England.

Building Notes.

A number of building improvements are being made in around the city and several neat cottages are being constructed. In addition to this other structures are being improved, and new fences are being constructed.

Extensive improvements are being made to the Caulfield building on the corner of Eighth and Main streets. Among the improvements will be a new stairway to the upper story. J. D. Renner is doing the work.

It is rumored that capital will be invested to again start up the Gladstone sawmill. Logs can be easily secured from up the Clackamas for the mill there. Sawmills, generally, are now doing a good business in Clackamas county.

J. Roake has completed a very neat pattern of a new fence around his premises.

Coroner Strickland is making some extensive improvements on his Seventh street property. George Reddaway is doing the painting.

Other improvements will be mentioned next week.

Where Will We Spend Our Summer Vacation?

This is the time of year to think about it, but before you decide, write for an elaborate, illustrated pamphlet showing numerous photo engraved views of the many attractions at the seashore and enroute, and advantages of the Columbia river beaches as reached by the Astoria and Columbia River Railroad. Three hours and thirty minutes from Union Depot, Portland, to your beach hotel, in a magnificent parlor car without change or transfer is a convenience and luxury few resorts can offer. Such is the initial attraction of this favorite resort. J. C. MAYO, Gen'l Pass. Agent, Astoria, Or.

No Right To Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys; and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at Geo. A. Harding's Drug Store.

Money Found in the Mail Bags.

"It seems almost incredible that in the neighborhood of \$40,000 in actual cash should have been confided to letters during the last year, and harder still to credit that the most exhaustive efforts failed to find the owners of one-fourth of that amount," writes Patti Lyle Collins in The Ladies' Home Journal for September. "The envelopes which are addressed are kept on file for four years, blank ones not so long, but in either case a liberal margin of time is allowed for claimants to appear before the money is finally turned into the Treasury to the credit of the Post-Office Department. In addition to the period, something like \$10,000 was found loose in the mails. It is officially styled 'loose money.'"

When death has laid its cold and relentless hand upon a kind and loving husband, the wife cannot be blamed for asking herself if all her years of devotion and work and helpfulness were worth the while, when it comes so soon to this tragic end. If men would only take the most common sense precautions against the encroachments of ill-health, there would be fewer houses of mourning, and fewer women left alone almost helpless before the battle of life is half over. A man's liver and stomach are twin machines that work together, either to make or unmake. If they work wrong, they deplete and poison his blood. Impure and impoverished blood mean sickness and death. If they work right, they purify and enrich the blood. A man whose blood is rich and pure, and whose liver is active cannot well be unhealthy. Headaches, biliousness, indigestion and constiveness, which men generally disregard, are Nature's warnings that the twin mechanism, stomach and liver, is working against instead of for him. Dr. Pierce's Golden Medical Discovery is the best medicine to use under these circumstances. It creates appetite, corrects all disorders of the digestion, invigorates the liver and fills the arteries with rich, red, healthy blood. As an invigorating, restorative tonic, it is far superior to all the malt extracts. It is the great blood-maker and flesh-builder. It does not build sickly, flabby fat as cod liver oil does, but the firm, muscular tissues of health. "For the last nine years," writes William Miller, Esq., of 651 Mulberry street, Reading, Pa. "I have been very poor in health. I suffered with a running sore leg. I tried many kinds of different medicines, and doctors without relief. Then I used three bottles of 'Golden Medical Discovery' and can say that I am entirely cured. I can now do as good a day's work as the next man." Unfailable—Dr. Pierce's Pleasant Pellets for constipation and biliousness.
