When at the academy where he was educated in London, he taught the junior department there for six months though only a little over twelve years of age. At the age of fourteen he went to San Francisco, Cal., for 18 months, being in the architect's office of Wright & Saunders of that city. Soon after his marriage, which occurred in 1886, he received his first charge, which was at Walla Walla, Washington. Bicycle Taxcollector E. H. Cowing has received a lot of new tags, but has discovered that there are but very few wheels now being used on which taxes have not been paid. The taxcollector claims that many people, who had wheels, have now put up the same for the winter, and it is difficult to levy upon them. All of this trouble is caused by the tardiness of the firm, who had the contract of furnishing the tags. Mr. Cowing says that he will order a thousand tags from Chicago in February. Later needed supplies can be secured on three week's notice.

Oregon City Academy.

In beginning a select or private school in Oregon City we desire to make it not only a permanent educational institution, but to enlarge it until it shall meet the evident and growing wants of Oregon City for at least full academy work.

We have been engaged in college and academy work in other places, and confidently ask for the patronage of the people.

At present we are prepared to hear classes in Latin, Greek, algebra, geometry, natural philosophy, physiology, physical geography, zoology, botany, rhetoric, composition, literature, history, pedagogy, also classes in grammar, arithmetic, geography, spelling, reading.

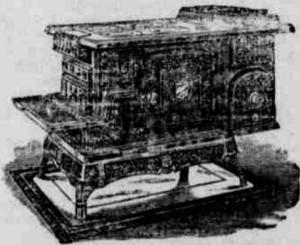

These studies will be given in regular course, fitting students to enter the freshman class in college or university work; or a select course may be pursued, if desired. Certain branches also may be pursued by any who cannot perform full and regular school work.

How well we shall succeed in our undertaking depends upon many things. We are not unmindful of the gravity and importance of any work that has to do with the training and preparation of the young people for a life of active usefulness, and desire to co-operate with all Christian workers, parents and patriotic citizens in the progress and elevation of our youth.
