LOCAL NEWS ITEMS.

Born at Clackamas, January 24th, to Justice H. A. Webster and wife, a son.

"The late frost and cold snap," says C. N. Wait, of Canby, "has been of great benefit to the fruit crop, by putting back the early budding and raising of the sap." During the late warm spell fruitgrowers were fearful that the probable early budding of the trees would result disastrously to the fruit should a heavy frost occur in the spring.

James Graham, of Beaver Creek, who has lived on one farm for many years, says that potatoes are the most profitable crop that a Clackamas county farmer can produce, taking one year with another. Mr. Graham is now trying dairying in a limited practical way, with good success. He intends to extend his operations in this line.

George H. Brown, the New Era potato grower and shipper, did exceedingly well with his Garnet Chilli's this season. He received \$800 for the product of 9½ acres. The tubers were sound and of good quality. He sold the lot to a California man, who paid him 80 cents per sack delivered on board the boat at New Era. Mr. Brown says that the Garnet Chilli's sell better in the market this year than the burbanks.

On Saturday Bert Greenman demonstrated that chinook salmon get up the Willamette over the falls, a fact that has been disputed to a considerable extent. He caught the specimens with a hook and line, which are apparently a year old, and about four inches in length. The live young specimens were placed in a jar, and sent down to the state fish commission headquarters in Portland, where they are now on exhibition.

Engene D. White, a native of Clackamas county, who was up from Portland the other day. His father, Dr. S. S. White, who lived on his farm during the early days at Mount Pleasant, recently told of some of some spring weather during the winter '49. He said the entire winter was almost like spring and strawberries blossomed and ripened as in the spring days. Dr. White is now 76 years of age, and is in feeble health.

PORTLAND OREGON

F. S. L. Bagby, of Bagby Bros., the well known sawmill men, of Molalla, was in town Sunday on his way home from Portland. He has purchased a lot of new, improved machinery, and will increase the capacity of the mill to 12,000 feet daily. Bagby Bros. have just completed a contract for supplying a Portland boat builder with some oak timbers. Not long since this firm furnished the Southern Pacific with a lot of oak lumber for car building and repairing. The proprietors of the mill expect soon to put in a turning attachment to work up the waste pieces of oak into articles of utility that would otherwise be a total loss of material.

The Oregon City basket ball team won another victory last Friday evening. They defeated the Willamette university team by a score 14 to 4, one of the crack teams of the valley. The personnel of the Oregon City team was slightly changed from that at the former games. Edgar Williams played in place of Peters, who was disabled by a sprained ankle. He put up a good game. Marquam, the center of the Willamette university team, is a Clackamas county boy. The Oregon City team is improving under the training of Secretary Griley, and is no doubt the crack team of Oregon.

Pease, who represents a book publishing concern, was in town a few days ago, and interviewed a number of citizens—among them a prominent lawyer—Pease so closely resembles United States Senator McBride, that he is sometimes mistaken for him by the senator's friends. Pease entered the lawyer's office and greeted the attorney, calling him by name, in his usual suave manner, when the latter kicked over two chairs and a spittoon in his efforts to reach the supposed senator and give him an automatic pump-handle handshake.

A prominent ex-volunteer of Company I, who is now looking after construction work on the new pulp mill at La Camas, was lost in the woods the other night, or at least, that is the story the boys tell on him. He had been visiting here, and returned to La Camas by way of Troutdale. It was after night when he reached Troutdale on the train, and started across the timbered bottom to the river bank to row across to La Camas. He got lost and wandered around in the timber until two o'clock in the morning when he found his way back to the Troutdale depot. It is said that he did not suffer the least inconvenience from sleeping on the depot platform until morning, as it reminded him of campaigning in the Philippines.

The concert at the Congregational church on the 16th instant, promises to be the musical event of the season—Portland, as well as the best home talent, has been secured for the occasion.

Mrs. Lucy Lewis, wife of Henry Lewis, of Clackamas Heights, who died Sunday, was buried in the Catholic cemetery Monday. The deceased was about 45 years old, and was a native Clackamas Indian.

E. W. Randolph returned last week from a two month's visit to Los Angeles. He says that the Belgian hare craze was raging so violently in the city of the "Angels," that he could not resist the temptation to purchase two of the pets. On account of the prolificness of the lupus family, the progeny of this pair will no doubt soon succeed in stocking Oregon City. The people of Los Angeles have imported about 10,000 Belgian hares, and in one instance \$600 was paid for a choice pair. The animals bear the most highfalutin names found in the annals of aristocracy, as Duke, Muck-a-muck, Lord Corkscrew, Lady Somerset, etc. Mr. Randolph says that orange growing is not all profit, and that many lose in the business, and often a grove turns out to be a never-do-well.
