Last October, when Meade Relief Corps Auxiliary settled up its affairs and ceased to exist, Meade Relief Corps decided to continue the work by supplying Company C, Fourteenth Infantry, with some desirable articles. Company C was selected for the reason that its soldiers were nearer to the volunteers in Company I, during the service, than any other body of soldiers, except the Oregon volunteers. On the 15th of last November, the Relief Corps forwarded to Company C at Manila, a Christmas box, containing 100 jars of fruit and a hundred volumes of reading matter. This week each member of the Corps received an elegantly printed card from Manila, signed by "The Members of Company C, Fourteenth Infantry," and addressed to Mrs. Rosina Fouts, President of Meade Relief Corps, Oregon City." The cards appropriately and gratefully acknowledged the receipt of the articles sent by the women.

Your Life May Depend Upon It

When your prescription is handed over my counter, to be prepared, it is treated as sacredly and confidentially as it is by the physician who wrote it; no comments, no publicity; nothing but the strictest attention to business in my prescription department.

I think there is no physician in Oregon City who will say there is any fault to be found in my method of conducting the prescription department of my store. I believe they will all say my double-check system comes near making the compounding of your prescription absolutely correct as is possible to make it. I believe, too, it is generally admitted that my prices are just and fair. There are many grades of chemicals to be obtained for prescription work. Some may be as good as the best, even though they may be cheaper, but it always has been my policy to take no chances with the MAY BE'S.

Take, for instance, muriate and carbonate of ammonia which go into many a cough mixture—they are probably ALL GOOD, but your physician will tell you that you may be absolutely sure it is the best if made by Squibb. The same may be said of many things made by Merck & Co., and so on through the list. All the better class of preparations will be found on my shelves and each one used where it should be. If you have never had your prescriptions filled on these lines, why not begin now?
