The following were winners of the prizes: Joseph Ego, coaster-brake for the most artistically decorated wheel; Miss Jennie Waldron, a gold medal for the most graceful lady rider; Ross Farr, a bicycle lamp for the most unique costume; Pierre Traglio, for the prettiest float. One fault with the contest was that it was almost impossible to learn who had won the prizes, as the judges did not know the names of the contestants, judging only by the characters represented.
The Clackamas County Teachers' Association will hold its regular monthly meeting at Harmony, one week from next Saturday. An excellent program is being prepared, and it will be one of the most interesting sessions for many days. Among those already assigned to places on the program are: Shirley Buck, of Canby, and N. W. Bontrant, of Clackamas. As Harmony is the location of Superintendent Bowland's home school, an interesting local program may be expected. Another interesting event will be a flag raising.

Some dark things are taking place in the city. This week the nine year-old daughter of a lady residing on Fourth street, was found in gulch a short distance from the house with her clothes almost torn off. It was said to have been the work of tramps. However, it is reported that a young man is under arrest for the offense. There is a strong opinion that Oregon City boys did the deed—not tramps.
Wednesday morning, at about 4:30, Officer Shaw spied two small boys coming up from the river between I. Sellings store and the foot of the bridge. They were strangers, and as he believed them to be runaways, he arrested them and placed them in the city jail. They proved to be Arthur Satterwaite, aged 12, and Willie Spere, aged 13, both of Montavilla, a Portland suburb. They spent a night in the jail, and next day an officer from below took them to Portland. Officer Shaw captured three other stray boys one evening about a week ago.
Mayor Latourette has filed a veto message with the recorder returning the ordinance passed at the last regular meeting of the council repealing an ordinance providing for the building of a roadway from Third street in the south part of the city to the top of the bluff, and carrying a conditional appropriation of \$1,000. One of the strong reasons given for the veto is that it would save the wear of the Main street pavement if team could come in from the south end of the county and unload their freight at the flouring mills, woolen and docks.
The Logan Cheese Manufacturing Company expect to have their factory in operation by the first of May. The machinery was taken out from Portland yesterday, and will be placed in position at once. This factory will be a valuable addition to the manufacturing industries of Clackamas county.
The following extracts are taken from a letter written to Mr. and Mrs. Alvis Phillips by Mrs. C. E. Knotts at Geiser, Baker county: "I arrived safely in Sumpter, and we are now at Geiser, living with Mr. and Mrs. Cahow. You can't get a house for love or money. Clarence helped Mr. Cahow to get his lumber and build his house, and as they had no housekeeping outfit we moved in with them and are now all living comfortably. It is impossible for one to get 10 foot of lumber here at any price. It has to be hauled from Sumpter 18 miles distant over a mountainous road. When I reached Sumpter it was late in the afternoon, and I had to rustle a place to stay over night, as there was no one at the train to meet me. I paid \$1 for a small room and 25 cents for meals. Board here is \$26 per month, and one has to furnish their own room, make up their own bed and get washing done at the rate of 10 cents a garment or \$1 20 per dozen. There are about 200 people in this little nook; the lay of the country is almost straight up and down and one has to blast to get a site level enough for a building place. Potatoes are 2 1-2 cents per pound, butter 70 cents per roll, ham 16 cents per pound, flour \$1 25 per sack, dried fruit 12 1-2 to 20 cents per pound, canned fruit, 25 cents per can, lard \$1 20 for a 10-pound pail, and other groceries in proportion. A bunch of a half-dozen small, bruised young onions costs 10 cents. As there is no lumber here Clarence is working for another man. The Bonanza mine has a sawmill, but will not sell a foot of lumber to anyone. The Company build houses and rent them for a high figure."

BUILDING IMPROVEMENS.

A Number of New Structures, and Substantial Repairs Being Made
The work of cutting up Weimhard hall into office rooms is almost completed, and same will be fitted up for occupancy in a short time. A wooden warehouse 25x50, is being erected at the rear, which will be used a storeroom by Bellomy & Busch.
W. A. White and J. D. Renner have been repairing and strengthening the old Methodist church building on Seventh street. This building was the first protestant church built west of the Rocky mountains, and was erected in 1843. The church people desire to keep this historic structure intact on account of the hallowed memories connected with it. Some of the huge square sleepers underneath the structure, that were hewn out by hand 57 years ago were becoming decayed and had to be replaced by new ones. The doors, windows and sash were made by hand, and still plainly show the marks of the carpenter's chisel. The doors and windows will be preserved in their original form and still remain component parts of the historic old structure. Every part of the old building that it is possible to preserve will remain intact in the structure.
A number of improvement notes are out of this issue, but will appear next week.

About seven years ago he was married to Miss Augusta Logus, oldest daughter of the late Julius Logus, who with a son survives him. Mr. Warner was 33 years old at the time of his demise.
