Session of Pomona Grange.

The session of Pomona Grange at Milwaukie was attended by about 150 Grangers, some of them coming from Multnomah county. Written reports from most of the subordinate granges in the county were read, which, in the main, showed growth. During the afternoon, matters of importance to the farming industry were discussed, and by vote it was agreed: That the members of the legislature from this county be requested to use their influence for the passage of an act providing for precinct assessors and their election by popular vote, said assessors to constitute a board of equalization; that the secretary be instructed to inform the senators and representatives in congress from Oregon that it is the urgent wish of this Pomona Grange that they make every effort to secure the passage of the act taxing colored oleomargarine 10 cents a pound and uncolored 1/2 cent, and also of the parcel post act, according to the provisions of which packages up to a certain weight, now carried only at exorbitant rates by express, would be carried across the continent at small cost. The lecturer who had been elected declining to serve, Mrs. D. T. Howard was, in his stead, elected Pomona lecturer. Thereafter 23 agriculturists who were desirous of advancing in their noble calling, were initiated in the fifth degree. As some of the features of the initiatory rites are beautiful and joy-inspiring, they fittingly terminated with a feast. Supper was succeeded by a varied literary and musical programme, the numbers of which were rendered with a skill that elicited many a hearty round of applause. Here the old folk went home in order to give the young Grangers opportunity to clear the hall of seats preparatory for the dance. This session of Pomona Grange will be remembered by those who attended it as a bright spot in their lives, and that especially on account of the kindness and hospitality of the members of Milwaukie Grange.
