Mother's Love

Is boundless. Yet it is utterly helpless to give strength to the child born with low vitality. The time to give strength to the child is before birth and to impart this gift the mother herself must be strong. Dr. Pierce's Favorite Prescription gives strength to mothers. It preserves them in robust health in the months before baby comes. It practically does away with the pains of motherhood, and enables the mother to endow her child with a healthy body and a happy disposition. "Favorite Prescription" contains no alcohol and is absolutely free from opium and cocaine.

"I consider Dr. Pierce's Favorite Prescription the best medicine made," writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. "I know it has no equal. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old but she was always feeble. I tried different doctors but none of them could tell what my trouble was. I was examined by surgeons but they found nothing wrong. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now have a fine baby girl, and I can not praise my medicine enough for the good it did me."
