Frog Pond.

We note that "D. H. M." writing from Frog Pond gives what he supposed to be the origin of the name of this place. Well! We will give him credit for doing very well with his off-hand stab but the name was here years before the time mentioned in that article. Old Uncle John Kruse, John Hamilton, Joseph Barstow and Warren Corby were in days long past the proprietors and sole owners of what was then and is yet the heart of this beautiful community

called Frog Pond. wished their north and south line run and employed R. V. Short, the only and chain, to survey it for them, they acting as axmen, while Warren Corby and John Kruse acted as chainmen. When about 43 chains north of Emerton Woodruff's donation land claim they were working their way through an unusually marshy place and the frogs kept up such a din that the chain had to be shortened half so that the words "stick," "stuck" could be heard. Stopping on a log at the above named place to take lunch the entire crew were made frantic by croakings. Emerson Woodruff, acting as flagman, beat the water with a pole to quiet the mob, and R. V. Short remarked as a luli came after a pole beat, "Well, boys, we had better get out of this frog pond before those Frenchmen get my instrument befuddled so I can't understand it."

They lined on the north side of Hamilton and Barstow's claims and there to see that all was well. Then John Kruse, in his own characteristic way said, "Boys, we have at last surveyed through Frog Pond!"
