C. G. HUNTLEY,
OREGON CITY, ORE. DRUGGIST.

In response to many inquiries it has been ascertained that the last legislature passed a law reducing the weight of a bushel of oats from 36 to 32 pounds. What could have been the object of such a bill is a wonder, as the price of oats are regulated by the value per pound. The legislator, who introduced such a bill, should be fed on a diet of whole oats for the remainder of his natural existence.

David S. Moore, of Carus, aged 71, was arraigned before County Judge Ryan last Thursday, on complaint of his wife that he was insane. On Friday Mrs. Moore swore out a complaint in the justice court charging her husband with threatening to kill. He had a hearing before Justice McAnulty Tuesday, and was bound over in the sum of \$1000 to keep the peace.

The Willamette Savings & Loan Association, of Oregon City, which recently decided to close up affairs has declared a dividend of 65 per cent of value of stock. The other 35 per cent will be paid as soon as securities, which are first-class, are disposed of. Stock in this institution has proved a good investment for and show the good management of the association. Another association of this kind should be organized on new plans which have come in vogue since the old association was formed. In this way considerable money and interest could be kept at home that will go otherwise now.

Recital at the Congregational Church.

The D'Alberti-Lough recital at the Congregational church Tuesday evening, was highly appreciated by the music-lovers present. In fact, the ordinary reporter, who don't know the difference between a bass and an alto horn, could not attempt to do the recital justice. The way in which the local musicians applauded and listened with delightful eager expectancy, was a sufficient appreciative endorsement. The way Mr. Lough rolled out waves of melody from the old church organ was a revelation and a wonder. Mrs. Lucelle D'Alberti's full soprano voice fairly captured the audience, and she was repeatedly called back.

Arrested for Violating Franchise.

George Adams, a motorman of the Portland City & Oregon Railway, was arrested Monday night by Chief of Police Burns on a charge of violating a city ordinance by running a train through Main street on March 11, consisting of an express car, one flatcar loaded with lumber, and one with merchandise. Adams was released on his own recognizance by Recorder Curry, and the hearing set for Tuesday when the attorneys for the trolley line appeared and asked for a continuance until next Tuesday, which was granted. The matter will be tested in the courts as to whether or not the trolley line has authority under a former franchise to run flatcars within the city limits. The majority of the members of the city council have contended all the time that the company had a franchise only for an express car.

New Settlers.

Last fall representatives of Norwegian Colony from Minnesota purchased the Howard property and other holdings near Canby, aggregating altogether about 500 acres. A half dozen families have already located there and more are coming. The Riverside school district had 20 new pupils when the clerk took the census of the district, all on account of the new immigration.

Negotiations are pending for the purchase of 200 acres more in the vicinity, and it is expected that 30 or 40 Norwegian families will be making their home in this vicinity before the summer is over. The new arrivals belong to the better class, and are welcomed by the residents of that section.

soon publish in book form "The Love Letters of a Liar," by Mrs. William Allen. They were first printed in The Smart Set last September, and owing to their charming style and fascinating "humaneness," at once attracted much attention. The social prominence of Mrs. Allen in New York and in the South, and in the charge—vehemently denied by the author—that they were letters written to her by one of her admirers, have made them a subject of conversation in fashionable drawing rooms. The New York World says: "All the world is talking about 'The Love Letters of an Englishwoman,' but they do not compare with 'The Love Letters of a Liar' in brilliancy, knowledge of men and the world, and their daring."

Mrs. E. L. Howe, of Portland, visited relatives in this city during the week.

ROAR OF THE FALLS.

It transpires that the law passed at the last session of the legislature reducing the per diem of jurors to \$1.50 per day, applies only to Douglas county.

The Oregon City edition of the Evening Telegram is now the personal organ of one firm, and the way functions are dish up creates a roar. The wrong people are usually given credit, and yet some codfish people think the matter furnished to the 125 people in Oregon City, is read by everybody in Portland. There are some very cheap guys.

Millinery Opening.

Opening at Mrs. H. T. Sladen's millinery parlors March 28th, 29th and 30th. A very carefully selected stock of all the latest shapes and novelties in millinery.

Galveston Disaster.

E. F. Munson, of Oregon City, has been appointed sole agent for this section of the state for the book descriptive of that great horror. The name of the neat work is "The Great Galveston Disaster" by Paul Lester, the noted author, the only authentic edition, and contains a full and thrilling account of the most appalling calamity of modern times.

The editor of this paper has carefully examined this work and finds it to contain all that is claimed for it and cheerfully recommends it to the readers of this paper and others interested in getting an authentic book description of this great calamity.

For Better Water.

A miniature filtering plant has been erected at corner of Main and Seventh street by M. Siscovine, who represents the manufacturers. A million-gallon filter, such as would be necessary for Oregon City water system would cost about \$12,000. With this and an additional supply of pipe running from basin to middle of river we would get good water at a nominal cost. Something should be done in this matter as soon as possible, and this seems the most practical at present. The water commission is in good shape financially and has \$7000 or \$8000 on hand which is being held to pay bonds, which mature in a year or so. At present \$1.00 rate the income is double the expenses and in three years we would have the plant paid for and the rate could be reduced to 50 cent or even less. If more bonds are issued improvements the rate should be cut to 50 cents as soon as possible. One dollar a month is too much for water especially the kind we get now.
