Grand Old Men. Some men seem to defy old age. They walk erect. Their eyes are bright. Their laugh is hearty. They are men of to-day—not men of yesterday. They are also men who have kept themselves in good physical condition in the past. As we grow older waste matter accumulates in the system. The body cannot throw it off without assistance. So, little by little the machinery of the body is clogged, vitality is lowered, and enjoyment of life ceases. Dr. Pierce's Golden Medical Discovery, cannot make old men young, but it does make them strong and healthy. By removing the waste accumulations, by increasing the blood supply, by strengthening the stomach and organs of digestion and nutrition, and thus increasing the assimilative and nutritive powers, "Golden Medical Discovery" makes grand old men. I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my stomach. I commenced taking Dr. Pierce's Golden Medical Discovery and little "Pelle's" am now in good health for one of my age—60 years. I love it all to Dr. Pierce's medicines. Dr. Pierce's Pellets greatly benefit old men by keeping the bowels in activity.

Former Oregon City People.

William E. Howell, who was secretary and book-keeper in the woolen factory from 1867 to 1871 is now engaged in experting mines. Since leaving Oregon City he has put in the most of his time in that line, and his work has called him into every state and territory on the Pacific coast and as far east as Colorado, to New Zealand, South America and British Columbia, and he has just returned from Mexico, and will be in Alaska before the month has ended. He will take to Alaska with him a steam launch and with his party he proposes to explore and prospect the streams putting into the ocean from St. Michaels to a point three or four hundred north. Mr. Howell is of the opinion that the rich quartz claims up there indicate the existence of valuable placer grounds, and he proposes to put in three years exploring for them. The steam launch has just been completed by the Moran Bros. on Puget Sound, and it will be conveyed north in sections, and put together at St. Michaels.

In his travels, Mr. Howell met Clayton, brother of Theodore Clark, in Colorado. Clayton, in early days, was the Adams of the woolen mills. When seen by Mr. Howell he had for sale gold, silver, copper, coal, iron and precious stone mines, and from appearances he was in good circumstances, well supplied with nerve, and satisfied with the world in general.

Another old factory attaché is Hugh Foster who married Miss Mary Sinclair in Oregon City. Mr. Foster was the predecessor of Mr. Howell as secretary. He lives in San Francisco and is engaged as an expert by the board of trade there. He is considered a very valuable man in his line, and his duties call him all over the coast. R. H. Duncan, or "Bob" as his friends called him, is living in San Francisco, and he has some mining interests that he expects will make him a rich man one of these days.
