Games were played until 9 o'clock, when they partook of dainty refreshments.

Out of the Trust

The Bicycle Season is about here. More wheels will be ridden than ever before. Now is the time to make up your mind what Bicycle you will ride. In calling the attention of the public to the Bicycles constructed by the Snell-Yale Cycle Co., of Toledo, Ohio I do so believing after having examined every wheel in use on this Coast that they are the best in construction, material and finish; having all up-to-date improvements, and some which no other make has. The Yale Cushion frame stands without a peer for strength, symmetry, beauty and finish. The Snell, Lady's or Gent's, is of the highest grade and for lightness in weight and easy running qualities has no equal. All wheels sold by me will be fully guaranteed. Anyone buying a wheel of me will have a selection from 5 different makes of tires. The Pathfinder Single Tube, the best that money can buy or that materials and expert workmanship can produce. You can cut it with an ax, but it will resist tacks, pins, broken glass, splinters, etc. Fully warranted. The Goodyear Detachable Tire fits all common rims or any detachable rim. The only practicable detachable tire ever made; is made of best quality of materials throughout and both inner tubes and covers are guaranteed for a full season's riding.

Come and see my line of wheels before buying elsewhere and be convinced of their superiority.

Mitchell Wagons

Guaranteed to be the best possible to build. Representing 65 years experience in wagon building, which is a better guarantee of a high grade (best possible to build) than all the talk of cheap dealers and agents for cheap wagons can possibly give you.

MITCHELL & LEWIS Co., the makers of the MITCHELL WAGONS pay 25 to 30 per cent above the market price of the best grades of wood stock for the privilege of a closer inspection and more rigid examination of each piece and to enable them to skim off the cream of the wagon timber offered on the market—HENCE WE CAN ABSOLUTELY GUARANTEE a superior quality of timber in MITCHELL WAGONS and it is just as impossible to build a good wagon without good timber as it is to build a good house without a good foundation. The foundation of a wagon is the timber. We know that everybody claims to have the best, but you can't see under the paint. In buying a wagon you must trust to somebody's word—we claim to be trustworthy and reliable; beside, we leave unpainted the underside of such parts as we can (reaches tongues, etc.) so that you can confirm our statements. We guarantee every stick fully. MITCHELL WAGONS are light-running, well proportioned and well finished, and, taken as a whole THE BEST WAGON ON THE MARKET TODAY. You can't make a mistake if you get a MITCHELL.

Mitchell, Lewis & Staver Co. First and Taylor Streets, PORTLAND, OREGON
