DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boecher's German Syrup." It not only heals and stimulates the tissues, it destroys the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac at George A. Harding's.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac at George A. Harding's.

In his statement of the budget before the English parliament, Sir Michael Hicks-Beach said he thought that the house would see that the South African war had brought the country to the verge of ruin; this could no longer be concealed. Sir Wm. Harcourt said it was the most disastrous statement the exchequer had ever made. One of the liberal members of parliament has figured out that every dead Boer has cost England 1000 pounds. There is great outcry against the proposed export duty on coal and other tax measures. The London Daily Mail characterizes the Boer war as "the most calamitous enterprise in which England has ever been engaged."

Unless a settlement is effected the war will be of long continuance." The burghers, he says, have a sufficient supply of ammunition and food to continue, a fact which is readily admitted by the English government. King Edward is tired of the war.

America is obnoxious to Europe on account of the intensity of commercial competition, and America's opposition to opoling up of China and to permitting European powers to gobble up South America. When the alliance against the United States has been formed, says the Spectator, it will be full grown and full armed.
