## THE BRUNER CASE.

### D. L. Bruner Found Guilty of Murder in the 2nd Degree at Prineville.

The case of the state against D. L. Bruner indicted for the murder of Thomas Reilly on Black Rock creek on the 4th of April last was called in the circuit court last Monday morning. The state was represented by Frank Menefee, district attorney, N. J. Sinnott, of The Dalles, and W. A. Bell, of this city. The defendant was defended by George W. Barnes, M. E. Brink and W. S. Hopkins, of this city, and Henry McGinn, of Portland. The defendant was attended in court by his wife and father.

The work of empanelling the jury was taken up as soon as court convened and from the regular panel seven jurors were secured. Two special orders for ten each were issued and from these four more were secured by noon and another order was issued for six more and on the convening of court at 1:30 the additional juror was secured.

The case for the state was ably presented by Mr. Menefee and M. E. Brink for the defendant. The examination of witnesses proceeded rapidly and by half past four Tuesday evening both sides had their testimony in. The evidence was very conflicting on many points and a great many points and a great deal of feeling came into the case.

The charge of Judge Bradshaw was quite lengthy and, to our way of thinking, was a very fair set of instructions. At 11:45 p. m. the jury retired. The first ballot stood eight for murder, two for murder in the second degree, and two for acquittal. This was the relative position until about daylight when a compromise was effected and a verdict of murder in the second degree was brought in at 5 a. m.

The court convened Thursday forenoon and the defendant's attorneys filed a motion for a new trial which was overruled and then D. L. Bruner was sentenced to the penitentiary for life. The defendant's attorneys asked permission to file a bill of exception and were granted 90 days to file the same.—Prineville Review.

### Two Gowns for One.

This is possible where a woman makes her own gowns, and there need be nothing of the home-made look about them either, if Butterick Paper Patterns are used. There is no risk about a Butterick Pattern; it is scientific and it also allows for disproportionate figures. Eight-page June Fashion Sheet free for the asking at Huntley's Book Store. Look at the Delineator for June, also some striking novelties.
