NOTICE OF GUARDIAN'S SALE OF REAL ESTATE.

Pursuant to an order of the County Court of Clackamas County, Oregon, made and entered on the 30th day of April, 1901, in the matter of the estate and guardianship of Bessie Randall, Jr., minor child of O. P. Randall, deceased, licensing said Bessie Randall, Jr. to sell, lease, convey, mortgage, or otherwise dispose of her real and personal property, she has caused to be advertised for sale at public sale, to-wit: The highest bidder, for cash in hand, the following described real property belonging to said estate and situated in the County of Clackamas, State of Oregon, to-wit: Beginning 2.72 chains north of the southeast corner of section 7, township 5 south of range 1 east, Willamette Meridian; thence running north 18.82 chains; thence west 41.78 chains; thence south 18.62 chains; thence east 41.30 chains, to the place of beginning; the same being a part of the S 1/2 of the D. L. C. of I. D. Murray and Maria T. Murray, containing 89 acres, more or less, save and except a right-of-way decided to Israel Yoder February 10th, 1890, and recorded in Book 37 at page 89 of the deed of records of said Clackamas County.

That bids for said property will be received by me at Woodville, Clackamas County, Oregon, and after said June 20th, 1901, I will sell and convey the same to the highest cash bidder therefor.

MRS. BESSIE RANDALL, JR., Guardian of the Person and Estate of Bessie Randall, Jr., Minor. Dated, May 11th, 1901.

CITATION TO HEIRS. In the County Court of the State of Oregon, for the County of Clackamas.

In the matter of the guardianship of Stephen A. Lane, an insane person. To the next of kin and all persons interested in the estate of Stephen A. Lane, an insane person. In the name of the State of Oregon, you are hereby required and cited to appear in the County Court of the State of Oregon, for the County of Clackamas, at the court room thereof, at the County House in the said county of Clackamas, on Monday, the 10th day of June A. D. 1901, at 10 o'clock, a. m., of that day, then and there to show cause, if any there be, why you have, why you have not, and why you should not be appointed guardian of the person and estate of said Stephen A. Lane, to-wit: The north half of southeast quarter (1/2 of sec.) and southeast quarter of southeast quarter (1/4 of sec.) of section 32, township 5 south of range 3 east of the Willamette Meridian, Clackamas County, Oregon, should not be granted as prayed for in the petition on file therein.

Witness, the Hon. Thomas F. Ryan, Judge of the County Court of the State of Oregon, for the County of Clackamas, this 5th day of May A. D. 1901. Attest, E. H. COOPER, Clerk.

CITATION. In the County Court of the State of Oregon for the County of Clackamas.

In the matter of the estate of Frederick Bullard, deceased. B. F. Bullard, the duly appointed, acting and qualified administrator of the estate of Frederick Bullard, deceased, having filed his petition in the above entitled court praying for an order of sale of the following described real property belonging to said estate, to-wit: Lot number 3 and 4 of section 28, in township 3 south of range 4 east, Willamette Meridian, in Oregon, and containing 68.16 acres. Also beginning at the most northerly corner of a 236 acre tract of land, decided by Vesty E. Haines and H. Haines on the 6th day of May, 1872, by James Crawford in sections 17, 20 and 21, township three south, range four east, Willamette Meridian, said deed being recorded on pages 41 and 42 of book "K" of the records of deeds of Clackamas County, Oregon; thence south 5 degrees east 10 chains; thence south 69 degrees 20 minutes west 10 chains; thence north 5 degrees west 10 chains; thence north 69 degrees 20 minutes east 10 chains to the place of beginning, containing 10 acres, more or less. Also an undivided one half interest in the following described property situated in the county of Clackamas, Oregon, and being a part of the Wm. M. Wade D. L. C., known as the "W. M. Wade D. L. C.," and being a part of sections 16, 17, 20 and 21, in township three south, range four east of the Willamette Meridian, bounded and described as follows: Beginning at a point 16.13 chains south of the northeast corner of said claim No. 39; running thence south 69 degrees 20 minutes west 44 chains; thence south 5 degrees east 20.92 chains; thence north 59 degrees 30 minutes east 42.22 chains to the east boundary line of the above mentioned D. L. C.; thence along said line 20 chains to the place of beginning, containing 20 acres, more or less. The said petition above mentioned sets forth that it is necessary to sell said land to satisfy certain claims filed against the above entitled estate.

It is therefore ordered by this court this 29th day of May, 1901, that John Bullard, Fannie Akins, William Bullard, B. F. Bullard, R. E. Sellman, W. M. Wade, Amy Ely, Rose Mowbray, and all others unknown, if any such there be, and all persons interested in said estate are hereby cited to appear before the above entitled court on the 6th day of June, 1901, at the hour of 10 o'clock a. m., of said day, at the court house in Oregon City, Clackamas County, Oregon, to show cause why an order should not be granted to the said administrator to sell the above described real estate at private sale and that a copy of this order be published at least four successive weeks in the Courier-Herald, a newspaper printed and published in said county and state.

THOMAS F. RYAN, County Judge. Attest, E. H. COOPER, Clerk. (Seal) Dated, May 29th, 1901.

COLORADO PRODUCTS. How Some Vegetables and Fruits Behave at High Altitudes.

Some of your readers will be interested to know the behavior of some of the newer vegetables and fruits in the Rocky mountains at an altitude of nearly 6,000 feet above sea level.

In the cabbage line Danish Ballhead is one of the best all around sorts ever tried here. It will displace Early Winningstadt, which has been almost exclusively grown here for market. The flat varieties have not been in favor for several years.

The 1900 tomato did well here. So did the Quarter Century, both introduced by Philadelphia seedsmen.

Admiral Dewey potato is the best yielding early potato we ever saw in our 15 years' experience as market gardeners.

In melons the New Triumph surprised the natives last year, although it was a complete failure the year before because of the variety not being acclimated. The seed had been obtained direct from the originator in Florida.

Last year a single vine matured over 200 pounds of melons. The New Harris melon is also a good one, growing to a large size, but is not as early as claimed by the introducer. It ripened about with Dixie here.

Extra Early Dirigo beet is as early as the Egyptian and of better shape, with finer flavor.

The Schumacher celery is strictly first class, a strong, robust grower and a splendid keeper. A bunch of 12 stalks exhibited at the fair here weighed 34 pounds. The New Mexican pepper is truly a monster. I think it is too large for mangoes. It is as early and prolific here as Ruby King.

In fruits there are the Triumph and Greensboro peaches. Both have fruited here this year, and people were astonished at their early ripening and fine size. There is about a week's difference in ripening between Alexander and Triumph.

The Willard and Red June plums fruited for the first time. The former was the largest and earliest by eight days. Willard is the strongest and thricest grower, has the best foliage and holds its fruit better than Red June. Judging both from their first fruiting we would select the former as the best plum.

Wilder Early, Koonce and Kieffer pears favored us with a few specimens each last year. The first named was the largest of the three and the best flavored. We were again disappointed in the size of the Kieffer; think it requires very strong soil and high culture. None of them was as large even as Wilder Early.

In apples we fruited for the first time Gano, Delaware Red Winter (also called Lawyer), Arkansas Black and Mammoth Black Twig. The first two and the last are very fine. Lawyer especially is of very best quality and no apple looks nicer. Arkansas Black, while of good quality, is too small for fancy market.

By the way, Champion peach has fruited here for three seasons and is pronounced by all to be the best flavored peach ever tasted. Elberta does splendidly.

Thus writes a Colorado correspondent to American Gardening.

Handy Device For Scalding Hogs. With this device one man can handle the heaviest hog with ease. I have scalded some 40 hogs with it, and know what I am saying. Place the hog on

the rack (Fig. 1), then close it, then proceed as shown in Fig. 2. Lift the hog over the trough by taking hold of the long lever. Lower it into the trough, so that the rack springs clear of the bottom of trough, then take hold of the cross lever and work it up and down, throwing the carcass from one side to the other, back and forth, until perfectly scalded. Keep trying the hair, so as to know when the proper scalding point is reached. Then swing out on the cleaning rack and take another hog. The figures explain themselves, says an Ohio Farmer writer.

Medium Weight Beef Cattle to the Fore. A point in the cattle industry of 1900 considered worth noting by the Iowa Livestock is that during most of the year heavy cattle were more or less at a discount, and animals weighing from 1,200 to 1,400 were preferred by buyers. During the latter part of 1899 heavy cattle sold very well, and many were induced by this fact to make heavyweights during last year, only to be met by the remark, "Too heavy," when they reached the market, and when the time for Christmas cattle arrived in 1900, while steers weighing from 1,350 to 1,500 were selling from \$6 to \$7.50, the very finest 1,700 to 1,900 pound cattle had to go from \$5 to \$5.40.

At Colman, Mich., William Anell, a moonkeeper, ran amuck, and before being overpowered shot and killed his little daughter, his wife and his mother, and also shot his brother and sister.

The deaths from wounds and sickness among the British troops in South Africa during May numbered 734.

Under the new ruling of the superintendent of immigration, all immigrants arriving at New York with tuberculosis of the lungs will be deported.

Nothing has been heard of five fishing boats which left St. Brieux, France, over two months ago and it is feared their crews, numbering 117, have perished.

At Macon, Mo., James Stacey, an engineer in charge of a stationary engine, in a fit of insanity shot and killed his wife and daughter and then killed himself. His mind had become unbalanced by overwork.

Bernard Stoy, a ranchman of Freeman, Wash., hanged himself in his granary.

At Yokohama every one scouts the idea that the Chinese government will ever return to Peking except as a pretense to satisfy the allies, all of whose military preparations will be made fruitless by a change of capital. The universal impression here is that in this matter the allies have not only overreached themselves, but have played directly into the hands of Russia.

According to the London Statist, the people of the United States buy back annually from Europe \$200,000,000 of their own securities.

At Truckee, Cal., last night, the "601," masked, tarred and feathered Harry Trot up to his mouth and ears and ordered him to trot.

The burning of 25 tons of smokeless powder at the Mare Island (Cal.) Navy Yard caused a loss of about \$500,000.

At Youngstown, Pa., the steel trust has raised the wages of 2000 men working in the mills of the American Steel Hoop Company, 10 to 20 per cent.

Seven Years in Bed. "Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostrations and general debility; but "three bottles of Foley's Kidney Cure enabled me to walk," she writes, "and in three months I felt like a new person."

VEGETABLES. Why Are Some Vulgar and Others Aristocratic?

Why do we respect some vegetables and despise others? The bean is a graceful, confiding, engaging vine, but you never can put beans into poetry or into the highest kind of prose. There is no dignity in the bean.

Corn—which in my garden grows alongside the bean, and so far as I care, with no affectation of superiority—is, however, the child of song. It waves in all literature. But mix it with beans, and its high tone is gone. Sweetpotash is vulgar; it is the bean in it. The bean is a vulgar vegetable, without culture or any flavor of high society among vegetables.

Then there is the cucumber, like so many people, good for nothing when it is ripe, and the wildness has gone out of it. How inferior to the melon, which grows upon a similar vine! The cucumber is a sort of low comedian in a company where the melon is a minor gentleman.

The lettuce is to me a most interesting study. Lettuce is like conversation; it must be fresh and crisp, so sparkling that you scarcely notice the bitter in it. Lettuce, like most talkers, though, is apt to run rapidly to seed.

Blessed is that sort which comes to a head, and so remains—like a few people I know—growing more solid and satisfactory and tender and whiter at the center.

Lettuce: like conversation, requires a good deal of oil, to avoid friction and keep the company smooth; a pinch of Attie salt, a dash of pepper, mustard and vinegar, but so mixed that you will notice no sharp contrasts, and a trifle of sugar.

I feel that I am in the best society when I eat with lettuce. It is in the most select vegetable circle.—Charles Dudley Warner in "My Summer in a Garden."
