The Bank of England has usually  
 about £25,000,000 to £30,000,000 of its  
 notes in circulation.

"Div me," said the very little girl who  
 was sent to the grocer, "some of dis,  
 some of dat and a few of dose." In its  
 Porto Rico decisions the supreme court  
 has supplied them all—"dis, dat and  
 dose."

A CANADIAN traded his wife for a dog,  
 traded the dog for a shot gun, traded  
 the shot gun for a keg of apple brandy,  
 drank the apple brandy and died of de-  
 licious fumes. It is called a curious case  
 of suicide.

ALL the cities of Europe show an in-  
 crease of population except those of Ire-  
 land. The blight of English misrule  
 rests like a curse on every square foot of  
 the Emerald Isle. There is no hope for  
 the Irishman except in emigration.

ACCORDING to Professor Withycombe,  
 of the agricultural college, a good bal-  
 anced ration for a cow consists of about  
 2½ pounds of protein, and 12 pounds of  
 carbohydrates and ½ pound of fat.  
 These materials will be contained in  
 about 35 pounds of silage, 8 pounds of  
 hay and 1½ pounds of mill feed, costing  
 on the average of \$25 per year.

FORMER Chief Justice Logan E. Black-  
 ley, of Georgia, greatly to the surprise  
 of his friends, has matriculated at the  
 state university for a special course in  
 mathematics. The judge is now 76  
 years old. He is writing a book in  
 which he treats of mathematics, but  
 finds that he is somewhat rusty on the  
 subject. It is for the purpose of "brush-  
 ing up," as he says, that he is attending  
 college.

For time appears to be coming when  
 trust stock will be the only investment  
 for savings. Senator Beveridge, of In-  
 diana, in a recent speech illumined this  
 matter so that even a fool wayfaring man  
 in his rush to catch a street car might  
 read and understand. He said: "He  
 is indeed a daring pessimist who denies  
 that the stocks of the mighty modern  
 combinations of production which con-  
 trol the necessities of the people, will fi-  
 nally be held by the people themselves—  
 small quantities in the hands of each of  
 a vast number of individuals, instead of  
 vast quantities in the hands of a small  
 number of individuals. And who can  
 deny that this very evolution is today  
 the chief problem in the minds of the  
 world's master financial and industrial  
 organizers themselves?"

ALBERT SONNICHSEN has just published  
 a book, "Ten Months a Captive Among  
 the Filipinos," which is endorsed by  
 Dewey and other American officers, and  
 also by papers of such opposite opinions  
 as the Outlook, the Nation and the New  
 York Times. Sonnichsen agrees with  
 nearly every other observer of the Phil-  
 ippine situation that the insurgent gov-  
 ernment had the practically unanimous  
 support of the people, but they were  
 willing to have peace on conditions  
 stated by the presidents of the two, who  
 favored American rule but said: "The  
 only basis on which peace can be estab-  
 lished between us and the American is  
 the total abolition of monastic fraterni-  
 ties and representation in your congress,  
 with home self-government. On no  
 other terms will the insurgents surren-  
 der, and although they may be con-  
 quered by superior forces, the spark of  
 rebellion will always remain ready to  
 burst into flame at every opportunity."

Rev. R. Roberts, of Bradford, Eng-  
 land, contends in an article published  
 in a recent issue of Democracy, that  
 ethically, the church is a failure. There  
 is a firm ring in Mr. Roberts' words: "I  
 affirm that the organization of iniquity  
 amongst us, as evidenced in the growth  
 of monopolies cornering the very neces-  
 saries of life for mere company profit, is  
 proof positive that church-taught mor-  
 ality is a failure. Nothing that church

## OUR FOREIGN POLICY.

The president (advancing to the footlights from the center of a chorus of cabinet  
 ministers and senators.)

"When we told them we'd make them a nation and free them in time  
 That we looked upon forced annexation as aggression and crime,  
 When we lured them by every assurance to fight by our side,  
 And flattered their endurance, the fact is—  
 Chorus (smiling): "Why, the fact is, we lied!"

The President:

"Now we're one of the great lying powers. In the days of our youth,  
 When struggle and weakness were ours, then we dabbled in truth.  
 But when we grew big like the others, and, strong in our pride,  
 Gave our word to our weak island brother, the fact is—  
 Chorus (chuckling): "Why the fact is, we lied!"

The President:

"We have joined the great circle of robbers. It was long, long ago  
 That we criticised grabbers and jobbers and were honest and slow.  
 Now we're laughing from Maine down to Texas at the idiots who cried:  
 'You promised us not to annex us!' For the fact is—  
 Chorus (laughing): "The fact is, we lied!"

The President:

"Thus the Tear swore to Riga and Finland with a lie for an oath,  
 And then from the coast away to inland he trampled on both.  
 Thus the nobles who govern Great Britain told lies on the Nile,  
 And cancelled the pledges they had written in falsehood and guile."

"And we, are we less than the British whose word is so glib?  
 He must be uncommonly skittish who shies at a fib!  
 Shall we yield to the masterful Russian as he perjures his name?  
 It is hardly a thing for discussion. We must play the same game."

"Thank the Lord, we are not sentimental! It is dollars and trade  
 That governs the soul governmental—that's the way we are made.  
 If we praise up the old declaration on the Fourth of July,  
 And man's equal rights by creation, the fact is—  
 All together (winking): "Why, the fact is, we lie!"

—Ernest Crosby in George's Weekly.

and pulpit have been able to do has been  
 sufficient to prevent such scandals. But  
 there is a power which can prevent  
 them. That power is the state. The  
 first step in civic progress, then, accord-  
 ing to Mr. Roberts, is to rehabilitate the  
 state. We must democratize the state;  
 we must improve its character, human-  
 ize its methods, and develop the affec-  
 tion and trust of the people towards it.  
 The state has a spiritual function. It  
 does not exist for the satisfaction of bod-  
 ily and material wants alone; it must  
 build up character and intellect. Only  
 by civilizing and socializing the state  
 can man himself become truly civilized  
 and social.

Public extravagance is one of the  
 most effectual means of destroying pub-  
 lic virtue; and public virtue; and pub-  
 lic extravagance in national matters has  
 resulted, in a large measure, from the  
 fact that the surplus income must be  
 disposed of by one means or another in  
 order to remove its existence as an ob-  
 jection to high tariffs. With due re-  
 spect to meretricious and honorable old  
 soldiers the question is not out of place,  
 Does any intelligent man believe that  
 our annual pension list would ever have  
 been as high as fifty million instead  
 of a hundred and sixty million dollars,  
 had it been necessary to raise the money  
 devoted to that purpose by direct tax-  
 ation? Would our representatives in con-  
 gress dare to multiply offices, approve  
 hundreds of unmeritorious private  
 claims, enact wasteful river and harbor  
 bills, and squander the public domain if  
 the national expenses had to be defrayed  
 by an overt, irritating tax, taking the  
 money directly from the citizen's pocket?  
 Every muniment of English liberty is  
 consecrated by the blood of men who  
 fought against the imposition of an  
 open, unjust tax; while tyranny has  
 ever thriven under the secrecy and mys-  
 tery of income for government expenses  
 raised by excises and duties.

## OREGON CITY TO BUFFALO.

Scenes and Incidents Enroute to Pan  
 American.

Leaving Portland Monday evening by  
 the "Twin City" express of the pioneer  
 transcontinental line, we passed through  
 fertile valleys of the Columbia and Cow-  
 itz to the city of Tacoma, the grain  
 shipping point of the great Northern Pa-  
 cific railroad system, and on to Seattle.  
 The Tacomaites consider Seattle as a  
 suburb of their city and treat it with  
 contempt. Still Seattle seems to be get-  
 ting the best of it, so far. It is the opin-  
 ion of many that Tacoma and Everett  
 are the coming sound points, that the  
 boom of Seattle is about over, and the  
 reaction will soon set in. Everett is be-  
 ing pushed by the Great Northern and  
 is two or three score of miles nearer the  
 ocean. Tacoma has always been the fa-  
 vorite port and terminus of the Northern  
 Pacific. Western Washington is much  
 the same as Western Oregon.

In Eastern or Central Washington we  
 find the fertile valley of North Yakima  
 with its irrigation ditches. East of this  
 section are the sage brush plains of  
 Washington, and for hours we travel  
 through them. The land is rich enough  
 if water was available and now affords  
 fine pasturage early in spring before the  
 hot winds that burn up vegetation ap-  
 pear. These dry hot winds were quite  
 a contrast to the cold, chilly air of the  
 Cascade mountains of a few hours before  
 where snow was on the ground and pas-  
 sengers amused themselves by snow-  
 balling each other. Near Pasco we no-  
 ticed a "washout on the line," with  
 calico much in evidence.

After going through the rustling city  
 of Spokane we passed through the mag-  
 nificent scenery of the Rocky mountains  
 into the state of Montana, the state of  
 mines and cattle. One can guess the  
 area of the state when it takes  
 about 24 hours to pass through on a  
 train. On the prairies of Montana and  
 North Dakota thousands of cattle are  
 fattened. In Western Dakota are the  
 so-called "bad lands," which also afford  
 pasturage for horses, cattle and sheep  
 by the thousand. In North Dakota and  
 Minnesota are fields of wheat, and along  
 shipping lines enormous elevators are  
 erected to handle the crops of golden  
 grain. In North Dakota is the cele-  
 brated million-acre farm. In a whole

day's travel by train you'll hardly see a  
 tree, except a few willows or cotton-  
 woods along the water courses.

## DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds  
 is all right, but you want something that  
 will relieve and cure the more severe  
 and dangerous results of throat and lung  
 troubles. What shall you do? Go to  
 a warmer and more regular climate?  
 Yes, if possible; if not possible for you,  
 then in either case take the only remedy  
 that has been introduced in all civilized  
 countries with success in severe throat  
 and lung troubles, "Boech's German  
 Syrup." If not only heals and stimu-  
 lates the tissues to destroy the germ  
 disease, but allays inflammation, causes  
 easy expectoration, gives a good night's  
 rest, and cures the patient. Try one  
 bottle. Recommended many years by  
 all druggists in the world. Get Green's  
 Prize Almanac at George A. Harding's.

## TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets.  
 All druggists refund the money if it fails  
 to cure. E. W. Grove's signature is on  
 each box. 25c.

No one needs to be told to try to cure  
 a cough. But any one will be glad to  
 be told of a means of cure which will  
 be thorough and lasting. Dr. Pierce's  
 Golden Medical Discovery is a medi-  
 cine which can be confidently relied  
 on to cure diseases of the organs of  
 respiration. It cures obstinate, deep-  
 seated coughs, bronchitis and bleeding  
 of the lungs. It cures when nothing  
 else will cure, and the local physician  
 says: "There is nothing more that we  
 can do."

There is no alcohol in "Golden Med-  
 ical Discovery," and it is absolutely free  
 from opium, cocaine and all other nar-  
 cotics.

The dealer, tempted by the little more  
 profit paid by less meritorious medicines,  
 will sometimes try and sell a substitute  
 when the "Discovery" is asked for. No  
 substitute medicine will satisfy the sick  
 like "Golden Medical Discovery." It  
 always helps. It almost always cures.

"Two years ago a severe cough started on me  
 and I was also bothered with catarrh," writes  
 Mr. F. Skjold, of Duaneville, Chicago Co., Minn.  
 "I could not sleep nights, as the cough was  
 worse at night. I tried several cough medi-  
 cines, but to no avail, until a year ago, when I  
 got so bad I could not breathe through my nose  
 at times. I then tried Dr. Pierce's Golden Med-  
 ical Discovery. After taking eight bottles of  
 Dr. Pierce's Golden Medical Discovery, and at  
 the same time using Dr. Sage's Catarrh Remedy,  
 I am a well man. I can thank Dr. Pierce for my  
 good health, and will recommend his medicines  
 to any one suffering from the same trouble."

Dr. Pierce's Pleasant Pellets cure con-  
 stipation.
