Opportunity to Save The Taxpayers Over \$1500 Annually.  
The following bid is now on file with the county board of commissioners, made by a party, who knows what he is doing. The bid explains itself.  
Gentlemen:—Realizing that the county is paying more than is necessary for stationery and printing, and knowing full well that your honorable body is anxious to save money for the county when the way is shown them, especially when the county platform of your political party declared for the letting of the printing to the lowest bidder, we hereby agree to furnish the county with all stationery, printing tax list, advertising, election tickets and supplies, blank books, etc.; in fact, everything needed by the county officers, for one-half price now being paid, or will furnish all of same for one year for \$1,000 payable quarterly. The above material and work will cost the county about \$2300 for the current year ending about July 15th, 1901, and the county will thus save about \$1300 in one year. For \$1800 payable quarterly we will furnish same for a period of two years. As the official paper of Clackamas county we will publish the sales of the sheriff, excepting tax list, which is included above, at the rate of \$1.50 per inch of 10 lines minion (same type as they are set in at present), for five insertions; or \$1.20 per inch for five insertions in brevier (nine lines to inch), or \$2 per inch for five insertions in nonpareil of 12 lines to inch. We will also give bond in a sum twice the amount of bid that work and supplies will in every way equal that now being furnished. This is a fair and open proposition, and there will be no trouble or expense outside of the amount specified, if proposition is accepted.  
Yours,  
A. W. CHENEY."
