Hubbard.

(Arrived too late for last issue.)
A large number of people from here attended the ice cream social at Monitor last Saturday. The hall was overcrowded so much so as to cause considerable discomfort, seats being available only for about two-thirds of those present. It was a pity the ladies did not at once go forward to the platform and take seats as they were afterwards told to do it as it then made the bare place a "thing of beauty." The program was good, what there was of it, and it's a pity that better order would not have been kept during the singing, as men and boys, who sat near the door being rude enough to talk both loudly and coarsely. Such persons should keep away next time if they are not prepared to listen, and only go in when the ice cream is ready to be served, and then their mouths would not be open all the time.
Mrs. Ben Stanton is staying with her sister, Mrs. G. Owings. Her little son, Mervin, is with her, and he is sick with the measles.
