

CLACKAMAS COUNTY NEWS

Bull Run.

Bull Run is still on the face of the earth, although you may not think so, at hearing from this place for so long, but the truth of the matter is, that about all the excitement we have had for some time is rain and it still rains.

Last week the heaviest shower of hail heard of in this section for a long time followed up the Bull Run canon and fell around and above the headworks of the Portland water works pipe line and knocking down a great many leaves and twigs, which fell into the water and floated down against the screens at the headworks causing considerable trouble to gate tenders to keep them open. The hailstones were as large as good sized hazelnuts.

J. H. Spain and family, of the headworks, have gone to visit relatives in Wakefield, Wash. They will be gone about a month.

Miss Nellie Bacon has been very ill. Mrs. E. F. Andre has returned from a visit to The Dalles, where she had been the guest of friends. She had a most enjoyable time.

E. F. Andre has returned home from Eastern Oregon, where he has been hearing sheep.

Clarence L. Huntington, of Portland, is staying at the headworks for a month. Miss Nora Cline made a trip to Cherryville and brought back her friend, Miss Ware.

A most enjoyable and complete surprise was given W. H. Phelps at the headworks Monday night. Mrs. A. Andre chaperoned the party. Games and cards were the features of the evening, and a bounteous repast was served at midnight.

H.

Stafford.

A great deal of the hay that was cut two weeks ago, is still in the field.

Mrs. Gage has returned home from Corvallis.

Nothing extraordinary has been prepared to celebrate Independence day here.

Cherries and small fruit are ripening very unevenly, much more so than usual.

Mr. Weddle is building a board fence between Moser's and Weid's farms.

Fred Baker will cut 11 acres of wheat for hay. Cow peas are so numerous in the patch that it would be impossible to harvest it with a binder.

The county road grader was returned from Willamette much the worse for its use there. Even grader trucks should be oiled or greased occasionally while in use.

Cut your cheat hay before it begins to ripen or it will be wily.

W. A. Gage, of Nustucca, visited his old home last week.

Applications are being received for the school here. We have about 65 pupils in regular attendance, and they range in age from 7 to 20 years. Teachers should not apply for the position unless they feel capable to do justice to a school of that size.

LENOHY.

Needy.

A very pleasant birthday party was given by Miss Mae Kinzer in honor of her 18th birthday June 21. A large number of her friends gathered together at the Independence hall in this place, which was beautifully decorated in honor of the occasion. The grand march was the opening of the evening's pleasure, which was led by Miss Mae Kinzer and John Johnson, followed by her entertainers, Albert Elliott with Miss Ada Huether, of Oregon City, and Charles Kinzer, of Hubbard, with Miss Wilma Elliott followed by others. The music was furnished by Gilbert Noe and Rile Garrett. After the grand march the young people tripped the light fantastic until a late hour. The evening was pleasantly spent by everyone present. Miss Mae received a large number of presents from her friends.

PRESENT.

Union Hall.

We are having rainy weather, as we usually have in June.

Miss Rose Faxon, of Canby, has been visiting friends in this place for the last few days.

George Helvey, who has been working in a logging camp in Washington, returned home a few days ago. He intends to return to his work in the near future.

Mrs. Maggie Pratt, of Mulino, is visiting her mother, Mrs. Joseph Briggs.

Mrs. Nettie Riggs went to Portland one day last week.

James Wilkerson is hauling wood to Canby.

T. J. Grimes has been helping L. P. Burns for the past two or three days.

Miss Mollie Burns, who has been staying in Portland, visited her parents, Mr. and Mrs. J. Burns, last Sunday.

Mr. and Mrs. J. H. Burns went to Canby last Wednesday.

Eugene Faulkner went to Portland last week to visit his sister, Mrs. Annie Tice.

Miss Eliza Burns was visiting relatives in New Era last Sunday.

Oscar Striker, who has been working near Canby, is home at present helping take care of the crop of hay.

Thomas Grimes has purchased a cow from A. L. Jones a few weeks ago.

Mr. and Mrs. J. H. Burns were the guests of Mr. and Mrs. B. J. Helvey Sunday last.

Elwood.

Jeese Cox has begun haying.

Miss Tennie Mayfield closed a very successful term of school today, with appropriate exercises also fitting speeches by W. T. Henderson and Professor Wilson, directors.

Mrs. Dibble is still ill in Oregon City.

Miss Emma Turner made a trip to the county seat yesterday.

Richard Bittner, of Oregon City, with a party composed of Mrs. Bittner, his brother, sister, brother-in-law and sister-in-law, is camped on Clear Creek for a few days' outing.

Henry and Feaster Cadonau delivered three cows to Washington county for \$40 each.

LALLA ROOKIE.

Mulino.

The mumps are around our burg again.

Mr. and Mrs. Boynton were visitors in Woodburn last week.

Bertha Herron has gone to Woodburn to visit with relatives. She will remain there for a month.

Agnes Wallace is working for Mrs. Barnes at Liberal.

Services were held at the Grange hall last Sunday evening. Sunday school was organized in the afternoon.

Charles Cutting has moved to Liberal. Adkins Bros. have moved onto the Trullinger farm and are cutting timber.

Charlie Shaw, who has been working on the Molalla, has a new wagon.

Mrs. Gardner is visiting her daughter, Mrs. G. W. Eorca.

Joseph Parrish, of Highland, was in Mulino last week.

BUSCHY.

Beaver Creek.

It is still foggy and misty on the creek with no appearance of hay weather.

A small amount of hay has been cut, and some is still out in the shock.

Pastures look fine on account of the rainy weather. Strawberries are very plentiful.

A few Grangers of Beaver Creek attended children's day exercises at New Era Grange last Saturday, and all report having had a good time.

Mr. and Mrs. T. J. Kirk and daughter, of Highland, visited Mrs. Kirk and family at Beaver Creek a few days ago.

Mrs. Kirk, son and daughter made a trip to Portland last Tuesday, where they purchased a mower.

John Shannon and sons have been supplying themselves with larger machinery to help the farmers of this community.

Mr. Scanlon has purchased a new binder.

From all indication it looks as though the much talked of day of prosperity are beginning to dawn.

We notice that Mr. Daniels, Jr., drives in a new buggy. What does this mean, Willie?

H. Mathies is suffering with a lame knee. He says there are accidents in the logging business as well as railroad business.

Mrs. Amanda Davis, who has been very sick for some time, is slowly improving.

Mrs. Viola Davis and mother made a business trip to Portland Tuesday.

V. Kirk and son, of Washington, are visiting relatives at Beaver Creek and Highland.

Mr. and Mrs. D. W. Thomas enjoyed a visit from their daughter, who resides in Portland, a few days ago.

The glorious Fourth is already being celebrated in this burg, and the stores have been decorated.

D. W. Thomas has hung out his sign as dealer in general merchandise. He has had numerous improvements made around his house.

The Welsh church has been repainted, and the kitchen looks as though it is wearing mourning. Mr. Inskeep, what did you think? You painted the cornice of the kitchen black. I think they have enough to eat there. Ice cream was served free of charge there on Children's day, but your humble servant forgot to attend, and as I am not a lover of ice cream, it doesn't matter.

Dark Hair

"I have used Ayer's Hair Vigor for a great many years, and although I am past eighty years of age, yet I have not a gray hair in my head."

Geo. Yellott, Towson, Md.

We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. Sometimes it makes the hair grow very heavy and long; and it stops falling of the hair, too.

\$1.00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

Rural Del.

Moshberger brothers made a trip to Seaside Sunday.

Isaac Williams was on our streets last Sunday.

Lottie Samson called on her sister, Mrs. C. Spangler, Sunday.

Albert Bigelow is still in Portland, where he is working.

A. Montandon, our road supervisor, did some splendid work on our roads last week.

Most of the farmers want to make hay, but cannot on account of too much cloudy weather.

Everybody in this locality will celebrate the Fourth at Wright's Springs.

Mr. Kyler is very happy now. It's a boy.

The campmeeting closed at Glad Tidings last night.

A BUCKEYE.

For Sale.

A second-hand hop stove, 4½ feet long, 11-inch pipe, 27 joints; 5 elbows and two T's. Virtually new, only 20 baies of hops having been dried with the stove. Address Charles T. Pembroke, near Adkins mill, Canby.

Molalla.

Jim Baty, who had the misfortune to have his leg broken recently, is getting along as well as can be expected.

John Noblitt had one of his fingers badly cut and another one dislocated, caused by giving his horse too much rope.

There is not much haying being done here. Farmers are waiting for fairer weather. The hay crop is looking fine this year, and if the farmers can harvest it without so much rain as last year it will be the best crop in years past.

The wheat and oat crops did fair so far for a bountiful harvest. The aphids has failed to put in its appearance so far.

Herman Timmer has sold his farm to a Mr. Simmons, of Marion county.

A. J. Sawtell has rented a house in Oregon City, where he will move about September 1st.

Henry and Ernest Russell, who have been developing mines in the Ogle Creek country, report having found a very rich ledge, it being the main ledge of which what is known as Wall street, is a spur. They have uncovered only about 30 inches of the ledge, and do not know how wide it is. There is no doubt now but what there will be good a mining camp in the Ogle Creek country in the near future.

William Shaver, Frank Adams and J. V. Harless have purchased the finest threshing outfit that has ever been brought to Molalla. The separator is an Advance self feed, wind stacker with weighing apparatus and a 20-horse compound double cylinder traction Russell engine. It will be at Canby on the 15th.

Our laundry has adjourned sine die.

X. Y. Z.

Everything in the Millinery line at a great reduction. Miss Goldsmith.

A car load of milk crocks just received and will sell at 8c per gallon. W. L. Block, the Homefurnisher.

Taken Up—One Lewellen setter bitch. Owner can have same by applying to O. G. Miller and paying charges.

The greatest healer of modern times is Banner Salve for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. Charman & Co.

Clackamas.

The funeral of Clark T. Rickman was held on June 26th at 7 o'clock in this place. Mr. Rickman was born in the state of Indiana, June 12, 1856, and he was married to Melissa Jarvis on June 12th, 1856. Nine children blessed their home, six of whom are living—Carl, Matt, Fred, Ettie, Rosa and Myrtle. Mr. Rickman was a member of the Meade Post No. 2, G. A. R., of Oregon City. Only Mrs. Rickman, Myrtle, Fred and family attended the funeral, as it was so unexpected.

Rev. J. W. Waltz officiated at the funeral. The floral offerings were beautiful.

Brother, rest from sin and sorrow; Death is o'er and life is won; On thy slumber dawn no morrow; Rest, thine earthly race is run.

A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by George A. Harding, druggist.

Glad Tidings.

Still it threatens rain. Hay is ripe and should have been cut a week ago.

It is not likely that we will have any good weather until after the Fourth. There has been considerable road work done lately, which is likely to make better roads hereafter.

Our campmeeting closed Sunday evening with a large crowd in attendance. Ellis Rblings, who has been working in a logging camp near Kelso, Wash., has returned home for a short visit with his parents.

Mr. Moore, who purchased the J. D. Jordan place, is moving in. He intends to build a dwelling soon.

Everything looks like there was too much rain, especially some of the farmers, who have had too much hay out.

Bert Hibbard is building a barn on his ranch.

Free-mill delivery is a prediction by all, but we have one that takes them without postage.

Mr. and Mrs. Charles Scott were over from Woodburn Sunday.

C. I. Gibson, of Silverton, passed through here on his way to Molalla Sunday.

We hope that everybody enjoys himself on the Fourth.

SQUID.

Come early and get a bargain.—Miss Goldsmith.

Notice to Bridge Builders.

Notice is hereby given that sealed bids will be received by the county surveyor of Clackamas county, Oregon, at his office in the county court house in Oregon City, until July 6th, 1901, at 2 o'clock, p. m., of that day, to build a bridge across the Molalla river at the site selected for said bridge, near the O. & C. R. R. bridge, between Canby and Barlow.

Said bridge must be constructed in strict accordance with the plans and specifications for such bridge, on file in the office of the county surveyor.

Each bidder shall be required to deposit with his bid five percent of the amount of such bid, which shall be forfeited to the county in case the award is made to him and if he fails, neglects or refuses for the period of two days after such award is made to enter into the contract and file his bond in the manner required by and to the satisfaction of the board of commissioners.

The board of county commissioners reserves the right to reject any and all bids.

By order of the board of county commissioners, June 17th, 1901.

E. P. RANDS, County Surveyor.
By John W. Meldrum, Deputy.

A beautiful line of baby bonnets and hats, all reduced, at Miss Goldsmith.

Guernsey bull at Bestow place, near Abernethy bridge. Season, \$1.50.

A specialty of gun work and repairing at Johnson & Lamb's.

Bargains where the gains are on the customers' side at Red Front.

Great reduction on all trimmed hats at Miss Goldsmith.

Grand Millinery Sale begins today at Miss Goldsmith's.

Great clearance sale. Miss Goldsmith.

Chicago Cottage Organ at Block's.

Flowers, ribbons, fancy chiffrons at a great sacrifice. Miss Goldsmith.

Call at Jackson's Bicycle Shop and see the latest in coaster brakes. Why pay \$5 when you can get this new brake for \$3.50? The "Hincley Improved" weighs only eight ounces while the other styles weigh three pounds. They are guaranteed in every way.

For a first-class buggy that will stand up on the Oregon roads, get a Mitchell, of Mitchell, Lewis & Staver Co., which is guaranteed in every way. The celebrated Mitchell wagons are all right, and all who use them are perfectly satisfied. Try one.

For Sale—Five-room house and barn, four lots covered with choice fruit trees. Price reasonable. Apply at this office.

HEADACHE

DR. MILES' ANTACID

Pain Pills

At all drug stores. 25 Doses 25c.

It's Worth Trying

CHARCOAL FOR SWINE.

Give the Hog a Chance to Doctor Himself.

Dr. Galen Wilson, the noted veterinary writer, in a recent issue of the New York Weekly Tribune gives the following on the care of swine:

From personal use when I kept swine and from a multitude of testimony since I know it to be advisable to give fattening hogs access to charcoal.

Feeding swine concentrated foods largely and usually at times to excess upsets or disarranges their digestive apparatus, causing stomach and bowel difficulties, with their multifarious attending evils. Alternate constipation and diarrhea are very apt to occur and weaken the digestive organs, giving easy opportunity for all sorts of internal parasites to get in their destructive work. Charcoal seems to absorb or neutralize the gases from fermenting sour food in the stomach and expels any troublesome forms that may have found lodgment there. Theodore Louis of Wisconsin is one of the best authorities on swine in America, and he would no more be without charcoal in his fattening pens or feed lots than he would be without bread on his own table. He never has any sick hogs. He keeps continually accessible to his swine a charcoal self feeder which is a box with a trough at the base so constructed that only a little of the coal can drop down at a time and this only as fast as that exposed is removed. Any one handy with tools can make one from this description. If no self feeder is made, then give the animals daily on a floor as much as they seem to eat greedily. But charcoal from wood is not often to be had now when the country is so nearly and generally cleared of its timber, yet coal from corn cobs is just as good.

Nearly every farmer has the cobs, and it is easy to make them into coal. To do it make a pit in the ground four or five feet deep, about 18 inches in diameter at the bottom and five feet at the top. Have a sheet iron cover made large enough to cover the pit and project six inches over the edges. Start a fire in the bottom with shavings and add by degrees a bushel or more of cobs and let them get well aglow. Then add three or four bushels more and when well on fire add more, and so on until the pit is rounding full. Should the cobs burn faster on one side than the other lift the cobs to the side that is burning least with a sharpened pole. Get some iron rod long enough to lay across the center of the hole to keep the iron cover from sagging. When all the cobs are well blazing cover the pit with the sheet iron and press fresh earth all around the edges to keep the pit air tight. Leave the pit so until the next day, when the charcoal can be taken out and there will be about ten bushels. If one wants to know now whether his hogs need charcoal or not let him get a handful of coal from among any wood ashes and place it before his swine. Should they eat it readily it will be a sure indication that they require it to correct something that is interfering with their digestion and the owner would conserve his own interests as well as promote the welfare of his hogs by "getting a hustle on him" and providing them with the needful charcoal. If that is impossible, or soft coal more convenient, crack up some of that into fine pieces and give them. It seems to answer the same purpose. Where soft coal is plentiful and cheap some swine feeders provide it regularly for their animals. At the mouth of a small vein of soft coal by the roadside in the soft coal region of Pennsylvania, being mined by any farm neighbors who might need it, I have seen swine pick up waste pieces of coal and crack them as other swine were cracking hickory nuts that fell from an adjacent tree. Nature is the best doctor. Furnish coal and give the hog a chance to doctor himself.

Weight and Form.

The fundamental reason why weight is not generally quoted in referring to breeding cattle is that it counts for little independent of the form and quality in which it is carried, says The Breeder's Gazette. For example, a breeder may advertise a bull that weighs 2,800 pounds. Some prospective buyer, with the need of a bull of extreme weight, might go to see him and find that the animal was huge and coarse in his anatomical structure and hence wholly out of consideration as a type to sire modern meat making cattle. Form and quality are the first considerations, then comes weight for age as indicating early maturing or feeding qualities. Men with herds of large, rather coarse framed cows may sometimes use to advantage bulls weighing a ton in show condition, but few breeders care to put in service a sire that will not tip the beam at that figure when in ordinary flesh. If a man has a company of cows inclined to be on the small side, he may take a bull of more range in form and of heavier weight by several hundred pounds. The rule which has governed the bulk of breeding operations in this country for about 15 years is that evolved and formulated at the old American fat stock show, "the greatest weight in the smallest superficies." The weight alone does not tell the tale. Form is the first consideration.

More Horses For Africa.

The fact that South African armies must be maintained and mounted is a favorable sign for our trade in horses and mules during the coming year. Military authorities have found by experience that the best horse in South Africa is the small, hardy one. This is the kind we have in greatest abundance and the kind that keeps down the market for those just a little better. The more of them that go to war and never come back the better for our horse industry.—National Stockman.
