IS THE BOARD AFRAID OF PORTER

The Enterprise is considerably worked up because the Courier-Herald has agreed to do the county printing and furnish stationery so that the county will save about \$1500 a year. The Courier-Herald also agrees to furnish bond in twice the sum of its bid for the faithful performance of the contract. What more can the board ask? Still they want some excuse for giving it to Porter, thereby pulting party before principle and the taxpayer. The Porter organ says we did not fulfill our last contract with the board. Who was to blame if we did not, the board paid and allowed the bills and if the county got worst of the deal it was the fault of the board? But we defy Porter or board to prove wherein we "did" the county, and we can show contract which the county board did not live up to, but rather than make trouble and expense for county we let the board have its own way. We saved the county over \$12000 while we had contract, but as soon as the present board took the reins of county government it gave the job to Porter at a "reasonable price," averaging 50 per cent above prices paid us. Will the taxpayers continue to be humbugged?
