"NERVE WASTE."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer, of San Francisco, now in its fifth thousand.

This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practically advice, and has the two great merits of wisdom and sincerity.

It is endorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."

The book is \$1.00 by mail, postpaid. One of the most interesting chapters—chapters xx, on Nerves and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, The Pacific Pub. Co., Box 2658, San Francisco in plain sealed envelope.
