### Much Reading for Little Money.

The New York World has got the cost of printing down to a minimum. Its latest offer of its monthly newspaper magazine is interesting if from no other cause than that it shows the acme of "how much for how little."

The Monthly World is a 32-page magazine with colored cover. Its pages are about the size of the pages of the Ladies' Home Journal, and it is copiously illustrated in half-tone. The illustrations are the result of the best artistic skill, aided by all the latest printing press appliances, making a magazine unrivaled in the quality of its contents and its appearance.

Each issue contains stories of romance, love, adventure, travel; stories of fiction and fact; stories of things quaint and curious, gathered together from all over the world; the results of scientific research, and editorial reviews. It numbers among its contributors the leading literary men and women of the day.

A feature each month is a full-page portrait of the most famed man or woman of the moment in the public eye.

In collecting and preparing for publication the literary matter and art subjects for the Monthly World no expense is spared.

The New York World will send six numbers of this newspaper-magazine on receipt of 15 cents in stamps. Address The World, Pulitzer Building, New York.

### The August Smart Set.

The Smart Set can never be accused of dullness. In its 160 pages of stories, verses and witticisms there are surprises and delights for the most blasé reader. The August number opens with a novelette of remarkable power and originality, entitled "Miss Sylvester's Marriage," written by Cecil Charles. Miss Sylvester, the niece of a society leader in New York, has some of the wild blood of the South American Spaniard in her veins, and she is fascinated by Count Geraldina, a daring adventurer, who claims to be worth millions as the beneficiary of a pearl fishery concession. The story of their sensational marriage and its strange results is told with great realism and admirable art.
