An effort will be made to recover the truant pupil.

The O. C. Southern electric railroad is not viewed with favor by the people of Canemah. The company is required to construct a 16-foot highway along its track through the village, part of which must run over private property owned by a man whose house and fence the company carelessly injured and he demands stiff pay for his land. At another point the track dams up a stream fed by a perennial spring in the hills, the result being that even now the highway or street there is an almost impassable mudhole. Heretofore there was no mudhole. Complaints against the company are not alone loud, but deep.

Newton McCoy, a well known Portland lawyer, who was in the city during the week looking up matters in connection with the sheriff's sale of delinquent tax property bid in by the county, gave some of his experiences at St. Helens. The sale of such property in Clackamas county will take place on August 10th, but the sale has already taken place in Columbia county. Mr. McCoy said there was some spirited bidding for the Columbia county tax property, and some 100-acre timber tracts brought as high a figure as \$450, while quite a number went for \$250 and \$300. Present indications seem to point to the fact that the bidding in this county will be more or less lively.

A meeting of the local merchants was held at the city council chamber Tuesday evening to consider the matter of early closing, and questions of mutual benefit to the city. Charles Albright was elected chairman, and W. A. Huntley was elected secretary. The expressed sentiment was unanimously in favor of enforcing the provisions of the former 8 o'clock closing contract. Some discussion followed, in which the majority favored the organization of a business men's association, to better work for the best interests of the city, something after the plan of a board of trade. A committee consisting of A. Robertson, G. W. Grace, W. A. Huntley, George T. Howard and Frank Busch, were appointed to prepare constitution and form of organization, and report at a meeting to be held Tuesday night.

Evidently no effort has been spared to make The Ladies' Home Journal for August a positive boon to its readers during these warm midsummer days. Its light, readable articles, bright stories, clever poems, charming music and numerous beautiful illustrations afford the easiest and pleasantest kind of entertainment for leisure hours. Enchanting views of the lovely scenery in the Engadine Valley and among the Swiss and Italian lakes, as well as such delightful articles as "The Singing Village of Germany" and "What Girl-Life in Italy Means" allure the thoughts to foreign lands, while there are timely suggestions about "The Picnic Basket," "Keeping a House Cool in the Dog-Days," and "Sea-Side Toys and How to Make Them." Other thoroughly interesting contributions are "The First White Baby Born in the Northwest," "My Boarding School for Girls," and the usual serial and department articles. By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a copy.
