Do You Own Your Home

If not why don't you stop paying rent and apply the money towards the purchase of a home? A first-class opportunity is now open to you in the proposition that the

Willamette Falls Company

Is making to sell small tracts of its land near the town of Willamette Falls on such reasonable terms that a person with a very small income may become a home builder. These tracts vary in size from two and one-half acres up, all good level land and first-class soil suitable for cultivation, On one of these tracts you can have a small orchard and also raise all the vegetables and small fruits that a family can use, and with the addition of a cow and a few chickens, a large part of your living can be made on the place. There is a good school in Willamette Falls and your children will have excellent educational facilities. Easy access is had with Oregon City over the

Willamette Falls Railway

With cheap fare, and cars are run to accommodate the mill hands. Why not get out of town and give your children breathing and play room and thus insure their good health? Don't you think that you would feel more independent and contented if you owned your home than you do when living in a rented place? If you are interested in this matter apply to C. A. MITCHELL WAGONS

Best possible to build.

No wagon is or can be better than a Mitchell, because the cream of wood stock is used, only after being thoroughly seasoned. The wagon is well ironed, well painted, well proportioned, and runs the lightest of any. It is nearly 70 years since the first Mitchell wagon was built, and they have been built continuously ever since by the Mitchells. When you buy a Mitchell, you get the benefit of this 70 years' experience.

NERVE WASTE."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer, of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practically advice, and has the two great merits of wisdom and sincerity

It is indorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now sufficient." of lives that are now suffering through nervous i.npairment."
