The bride is Miss Annie C. Pauling, and the quiet ceremony took place at the home of the bride's parents. That, at least, is supposed to have been the program.

Hot Baseball Events.

There will be a game of baseball between the Willamettes and the Gervais Stars at the Willamette field at 2 o'clock Sunday afternoon. It will be great game as the conditions are proper. In the game with the Gervais Stars last Sunday the Willamette took the first five innings, when their pitcher gave out and the substitute was unable to play. Gervais won by a score of 14 to 7. The visitors were entertained handsomely by the visitors.

Company A beat the Hillsboro team on their ground by a score of 12 to 3.

Come early and get a bargain.—Miss Goldsmith.

Some Striking Situations at the Regular Monthly Meeting of The City Council.

At the city council meeting Wednesday Huntley introduced a resolution, which passed unanimously. It was in effect that the present franchises owned by the Portland City & Oregon Railway Company were fair and equitable. This was after the address by the trolley company's attorney, asserting that they ought to have a 43-year freight and passenger service in place of the one now tied up in the courts, although no ordinance was presented.

The position of sexton at the city cemetery is evidently looked upon as a snap, as four applications for the place were filed. The vote was as follows: C. Bluhm, the present incumbent, 5; John Gillett, 2; E. Williamson, 1; P. D. Curran, 1.

It was ordered that the water commission be notified that it is the sense of this council that water mains be laid on all streets running north and south. Complaint is made that some property owners in the new sewer district are so far from the water mains that they cannot make connections.

The council on motion of Dr. Powell refused to grant the Retail Merchants Association the privilege of holding their meetings in the council chamber. It was voted to repair the Mount Pleasant road and Main street, near the Abernethy.

The street commissioner was directed to proceed to collect the \$3 poll road tax from all persons in the city entitled to pay the same.

Clackamas County's Hot Springs.

Caleb Cross and son, Ralph are home from a trip to the noted mineral hot springs on the head waters of the Clackamas river, about 60 miles from Oregon City, and about half the distance from Russell's near Willhoit Springs. These hot springs are in Clackamas county, and within the boundaries of the Cascade Forest Reserve. Mr. Cross says that he would guarantee the construction of a wagon road to what would become the most popular resort on the Pacific coast for \$1000. The boiling hot water pours out of the hillsides in streams of varying size, one almost six inches in diameter. Water could be conveyed from the springs by gravity for swimming or any other kind of baths. There are acres of comparatively level ground, covered with timber and admirably adapted for camping sites. The water, too, possesses rare medicinal properties.

E. E. Charman, who recently returned from St. Martin's springs on the Columbia, is enthusiastic in having a road built to the Clackamas springs. St. Martin's Springs are reached with difficulty. The steamer lands on the Washington side, 12 miles this side of Hood River. It is the three miles over a steep mountain to the springs. The camping place is on an elevated bench. The hotel is on a bench reached by going down the precipitous mountain side 100 feet, and the springs are reached by going down another 100 feet down an almost perpendicular wall before the springs are reached.

This week Fred G. Plummer, accompanied by M. G. Gowell, Fred and H. Q. Shoemaker started out to make a geological survey of all that part of the Cascade Forest Reserve north of Ogle mountain, and will no doubt make some interesting discoveries. Mr. Plummer, who has been prominently connected with the United States geographical survey, says that government does not build wagon roads in forest reserves—only in national parks. However, the county can build a road in the forest reserve.

Y. M. C. A. Prospects

At a meeting of the board of directors of the association early this week, it was decided that during the present month a number of the rooms of the building should be remodelled, suitable new apparatus be placed in the gymnasium, and that the building be improved in general. Until September 1st, the general secretary will be at the rooms only from 4 p. m. to 10 p. m. each day except Sunday, and on Sunday from 1 p. m. to 7 p. m.

All members should call at Association office and secure new tickets, receiving due credit for unexpired time on old tickets. Men wishing to join should call at the office, fill out an application blank, pay the required dues and receive a membership ticket from the general secretary entitling the holder to full privilege of the Association.

The following shows the amount necessary for dues and their time of payment: Juniors: Boys between the ages of 8 and 16 years are included in this. Initiation fee \$1, and dues \$2.50 a year; payable \$2.50 first month, \$1 second month.

Regular members: This includes all men of good moral character, whether church member or not. \$1 initiation fee and \$5 yearly dues; payable \$3.50 the first month, \$2.50 the second month.

All dues are payable at the office at the office of the Association. If dues lapse 30 days beyond the date upon which they are due, the initiation fee becomes payable again. All who join the Association between now and September 15th will be exempted from initiation fees.

The first room to the right as you enter the Association building is free for the use of the public. The daily and weekly newspapers and the correspondence table with stationery are free for all. All other privileges are for members only.

With the fall opening the Association will conduct classes in physical work in the gymnasium and week-night Bible classes; establish evening educational classes; present attractive social features; and hold each Sunday afternoon a men's gospel meeting.

It is quite probable that a competent physical director will take charge of the gymnasium when the fall work begins. Any special information regarding the work of the Association can be secured by calling at the office or addressing the general secretary, W. Gilbert Beattie.

Good Investment—River front lot 68x105 feet, situate back of Charman's drug store, suitable for modern flats or cottages, for sale. Price \$1000. Also 2 lots corner of Jackson and Eighth streets. Inquire at Commercial Bank.

Mrs. Seiler's Birthday Party.

Mr. and Mrs. Rudolph Seiler were the recipients of a large surprise party at their home on upper Seventh street, Monday evening in honor of the latter's birthday. Fully 50 friends assembled at Seiler home unannounced, while Mrs. Seiler was finishing up the work of watering her flower garden. The large parlors, dining room, kitchen and porches were filled with a merry crowd until after midnight. The younger guests passed the time with dancing and games, and the old folks in social conversation, and relating interesting stories. Refreshments were a feature of the evening.

Order your vegetables, poultry, fish and lunch goods at the Oregon City Market. Give it a call.

Malaria?

Now is the time to take something to ward off malaria and that tired feeling. Those of us who cannot go to the seaside or the mountains are sure to have an occasional symptom of malaria. Don't let these symptoms grow but ward them off by generous doses of **Quina Tonic**. We have been making this Tonic for the past 10 years and without advertising or special pushing, the sale has steadily grown until we are convinced there is no better remedy made for general debility, loss of appetite or any of the summer ills resulting from lack of change of air or to close application to business.

Everyone knows the advantages of Quinine in malarial conditions and nearly every one knows too how it often distur
