We have now had three presidents assassinated, Lincoln by a democrat; Garfield, by a republican; McKinley by an anarchist. Socialism has not developed any murderers yet, in this or any other country. Our motto is love. If a murderer assassinates our president, why do so many people, especially the ministers of the gospel declare that it was God's will. How do they know that? If it is guess work, I have as good a right to guess as any one, so I guess it was the work of the devil and that God had nothing to do with it.

Born, September 13th, to Mrs. J. Strohaker, a girl.

Your correspondent took a trip to Ocean View and will endeavor to describe the trip.

Leaving home at 9 a. m. we made our first camp at Newburg, which is a very pretty town. We started from home by way of Willamette Falls and Stafford through the counties of Clackamas, Washington and Yamhill, a distance of 35 miles. The next day we camped at Wilhelmina, going by way of Dundee, Dayton, Amity, Bellevue and Sheridan, where we saw some of the prettiest fields that man ever set eyes on.

For roads, well, Clackamas county is not "in it," as a person would not need a brake to travel that road, a distance of 35 miles. A two-hours' drive from Wilhelmina brings you to the Grande Ronde hill, which is the steepest pull going, while you gradually get over the mountain on an easy grade and a good smooth road to Dolph, where the Toll gate is. Here the road forks to Slab Creek and Little Nestucca. After paying \$1 for a four-wheeled rig, 75 cents for a two-wheeled rig and 50 cents for a saddle horse you proceed to wind your way down to Woods and Ocean Park, a distance of 35 miles, where we arrived at dusk.

To describe all the sport would be taking up too much space, sufficient to say digging clams and rock oysters, and wading in the surf is more fun than you can "shake a stick at" in a month. The accommodations are as handy as a "pocket in a shirt."

If you intend to catch fish get a guide, as you will be loaded down with mudcats before you get back to camp. Just now the fishermen are gathering their harvest, but the supply was not equal to the demand. Fishermen receive 1-2 cents per pound at the cannery, while they charge three cents per pound to wagons and pack them in barrels, where parties furnish their own salt to pack with. Those going in for fish had better take salt as it seemed to be very scarce there. L. F.
