PATRONIZE HOME INDUSTRY

OREGON CITY, OCT. 25, 1901.

OREGON'S TIMBER.

Forestry Expert Johnson makes the following estimate of the timber in Oregon. This estimate applies only to trees 18 inches and over in diameter 30 feet from the ground:

Table with 2 columns: Tree type and Quantity. Includes Yellow or red fir, Spruce, Hemlock, Yellow pine, Sugar pine, White pine, Noble fir, Silver fir, Red cedar, White cedar, Tamarack, White fir, Miscellaneous—oak, ash, maple, etc.

Total 335,000,000,000
One-eighth of the timber lands has been burned over. Two years ago it was not known there was any red wood in Oregon, but in Curry county there are 1000 acres.

The Chicago Tribune says that people who urge that the proper sphere for woman is the home may find much encouragement in the figures showing an increase of 50 per cent in the number of marriages in Cook county since 1899.

The Chicago Tribune says that people who urge that the proper sphere for woman is the home may find much encouragement in the figures showing an increase of 50 per cent in the number of marriages in Cook county since 1899.

How many children are sacrificed in the United States on the altar of the idol of culture the census never reveals. An exchange asks: Do American men and women realize that in five cities of our country alone there were during the last ten years over 300,000 children between the ages of eight and fourteen taken out of the public schools because their nervous systems were wrecked, and their minds were incapable of going on any further in the infernal cramming system which exists today in our schools?

the children we know about. Conservative medical men, who have given their lives to the study of children, place the number whose health is shattered by overstudy at more than 50,000 each year.

In an address before the Phi Beta Kappa Society of Harvard University, Wayne McVeagh pointed out the grave dangers of continuing to substitute money for morals as the permanent and controlling force in American politics.

The Schley court of inquiry has proved those damnable counts in the indictment against the old sea dog, says the East Oregonian—that he licked the Spanish fleet under Cervera; that he lost not one ship nor one man in so doing; that he exercised his own discretion, technically disobeying orders, and thereby insuring victory; that Sampson was not present at the battle of Santiago, arriving after the action ended; that Schley said "damn the Texas," thereby injuring the feelings of a monstrous engine of naval war; that he was somewhat "stirred up and slightly agitated at the prospect of a big fight, and did not lie in a hammock and smoke cigarettes and allow the whole fighting business to take care of itself.

An Englishman secured a contract for building a section of an elevated railway in Boston. Knowing that because of the curious operations of the American protective tariff he could buy American made steel cheaper in England than Americans could buy it at their own doors, he proceeded to take advantage of the fact.

The American carpetbaggers that compose the government of the Philippine islands, draw an aggregate salary of over \$124,000, which the Filipinos have the privilege of paying. As a native workman earns the magnificent salary of 25 cents in gold per day, that sort of robbery in the name of American liberty and equality is not apt to instill very much loyalty in his breast.

An artificial fuel that, according to the inventor, can be manufactured for 50 per cent less than coal is a new article that is attracting much attention. Henry W. Morris, of Wilmington, Del., is the discoverer, after eighteen years of experiment. The artificial fuel is composed of about 90 per cent of common earth, which accounts for the cheapness with which it can be prepared.

A deer in this county of nearly \$2,000,000, means that each man, woman and child in Clackamas county carries \$8 indebtedness, and a county expenditure of \$150,000 annually means that \$6 per head is spent by our county government for each one of our 25,000 population. The taxpayer may well take alarm and ask, When will this extravagance end?

CAPTAIN ROBINSON of the British steamer Easingwood, at Philadelphia, from Sourabaya, Java, reports that on August 6th, near Ceylon, the vessel passed through a strip of sea the color of blood, about 14 miles long and three or four miles wide. The water for a depth of two feet was as thick as paste and swarmed with suckers.

The whole of Cape Colony, by proclamation published recently, is now placed under martial law. The British government confesses by this act that its hold not only on the two Boer republics but on its own colonists of Dutch blood is baseless and wholly on armed force.

Joseph Lawrence M.P. reports (Eng.) Chamber of Commerce that the steel trust has agreed to deliver steel billets in England for \$16.50 per ton. The American consumer pays \$27 to \$27 for the same thing and there is no ocean freight to be paid either.

By the consolidation of steel plants and the utilization of chemical discoveries, a formidable rival to the United States steel corporation may be formed in England.

Out of 22,833 coal miners employed in the district of Liege, Belgium, 15,004 are idle. Collisions between the strikers and the gendarmes are becoming more frequent.

In Germany one-fifth of the women, numbering over 20,000,000, are employed in some trade or profession, which shows that the wages of men are low.

Russia's yield of petroleum is 68,000,000 barrels a year, and that of the United States 59,000,000.

Where Float the Stars and Stripes.

Upon Atlantic's western shore Where Pilgrims came in days of yore To build new homes beyond the sea To dwell in peace and worship free, There float the Stars and Stripes.

Where once beside the wigwags smoke The Indians' tread the silence broke, And now is heard the plowman's song, Or presses on the eager throng, There float the Stars and Stripes.

Where bluebirds call with mellow ring, And mocking birds most sweetly sing, Where robins' sweet enchanting song Is heard in spring the whole day long, There float the Stars and Stripes.

Where on the Southern cotton fields The darkey free his hie now wields, Is glad to be where all are free, And sings the song of liberty, There float the Stars and Stripes.

Where deep are drawn the shadow lines Beneath the somber Northern pines That seem to stretch to heaven high And touch at night the starry sky, There float the Stars and Stripes.

Where on the fertile Western plains The farmer reaps the golden grains Where on the Rocky mountain heights Above the clouds the eagle lights, There float the Stars and Stripes.

On Mississippi's flowery lands O'er Sacramento's golden sands And on Columbia's rocky shore, Where sky and clouds their blessing pour, There float the Stars and Stripes.

And o'er Alaska's glaring snow Where fierce and cold the winters blow Where midnight sun and northern light Dispel the gloom and cheer the sight, There float the Stars and Stripes.

Upon the ocean's foamy waves, Where oft a bark the tempest braves, Are sailing ships the world around, To foreign ports or homeward bound, There float the Stars and Stripes.

O starry flag, we sing to thee, Where thou art floating all so free, And glad we are the world to tell Of joy and pride, because we dwell Where float the Stars and Stripes.

Resolutions.

Following are the resolutions adopted by Molalla Grange, No 40: Whereas, Co-operations in well doing, otherwise expressed in the words, brotherhood of man and fatherhood of God, is the rule of action of the patrons of husbandry, therefore, be it

Resolved, That Clackamas District Pomona Grange assembled at the Eagle Creek Grange hall deeply mourns over the assassination of the revered president of our country, William McKinley, and hopes that the time may come when man shall no longer seek to revolutionize political institutions by murder or by war, which is but legalized murder, and the maxims of the illustrious Prince of Peace shall be the guard the world over.

Resolved, That this Pomona Grange utterly condemns anarchism, anarchism and would in unqualified terms express the conviction that no anarchists, which is but another word for traitor, can be a true granger, or in any manner fit or worthy to be a member of our noble order.

Resolved, That this Grange is unanimously in favor of legislation by congress and by the legislature of the several states for the summary suppression of anarchists and the regulation of emigration to prevent their landing on their shores.

MOLALLA GRANGE HALL, Oct. 12, '01. Be it, your committee appointed to draft resolutions on the death of our honored president, William McKinley, would recommend that the foregoing preamble and resolutions were adopted by Clackamas Pomona Grange be adopted as a whole by Molalla Grange No. 40, placed on record.

When You Eat

Do you have a feeling of undue fullness in the stomach, belchings, or sour or bitter risings? These are but a few of the symptoms of the diseased stomach. The worst thing which can be done for the stomach in such a case is to take some tablet or powder which merely gives temporary relief from discomfort.

"I was troubled a long time with dyspepsia, torpid liver, and constipation," writes Mrs. Julia E. Deal, of Oswego, Fredell Co., N. C. "I could scarcely eat anything at all; would have attacks of pain something like colic, and sometimes it seemed as though I could not live. I wrote to Dr. R. V. Pierce, stating my condition, and in a few days received a kind letter of advice, telling me to use Dr. Pierce's Golden Medical Discovery. I took four bottles, and one vial of Dr. Pierce's Pellets, and now I can eat anything I want and it don't hurt me. I have not been in bed a day since I took your 'Golden Medical Discovery,' and I have not since felt any symptoms of disease. I have not taken any medicine in twelve months."

Sagamore Sour Mash.

If you want a liquor that is chemically pure—direct from the distillery, try the Sagamore sour mash. Kelly & Noblitt, direct purchasers.

To Trade—100 acres of land six miles south of Oregon City; timber enough to pay for place; running water, orchard, about 100 acres cleared. Will trade for Oregon City or Portland improved property. Inquire at Courier-Herald office.

The Portland City & Oregon Railway Company will run cars every 30 minutes between Oregon City and Portland Sunday. A delightful ride for only 25 cents the round trip. The cars run clear through to Canemah on that day.

STOP THE COUGH AND WORKS OFF THE COLD. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure no pay Price 25 cents.

Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver, to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at George A. Harding's drugstore.

For Over Fifty Years.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Is pleasant to the taste, Sold by Druggists in every part of the World. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Scott's Emulsion

of Cod Liver Oil is the means of life, and enjoyment of life to thousands: men women and children.

When appetite fails, it restores it. When food is a burden, it lifts the burden.

When you lose flesh, it brings the plumpness of health.

When work is hard and duty is heavy, it makes life bright.

It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scott's Emulsion of Cod Liver Oil is the food that makes you forget your stomach. If you have not tried it, send for a sample. Its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, 108, North Street, New York. 50c. and \$1.00; all druggists.
