The same rigid scrutiny of fabrics the same smart tailoring for boys' clothing as for men's. Styles that have the boyish grace with the manly finish.

Beautiful suits for the little fellows; strong, sturdy suits for the older boys—practical and novel; a splendid collection of boys' clothes that is not matched anywhere—that no parents of boys can afford to miss seeing. Many, indeed, express surprise that we can give so much for the price, and it has troubled us more to supply the demand than it has to sell these goods. "Brevity is the soul of wit." The following are briefly stated with no pretensions, but there's wisdom in buying them, to-wit:

The members of the last legislature are getting some pretty deep curses now on account of the road poll tax law, which requires an extra \$3 to be paid in advance. The ordinary Clackamas county taxpayer is already overburdened with road and other taxes, and a county debt increasing. It comes especially hard on the mill hand who receives \$1.50 per day. All the people cannot be members of the volunteer fire department or the militia, and thus escape paying several dollars in poll tax. The membership in the fire department should be cut down to those who actually attend fires, and these should be especially favored by the council.
