Fred Meindl, the New Era school teacher, who was elected permanent chairman of the socialist party Central Committee, is a young man who is willing to sacrifice everything for the good of all the people, and we predict that the time will come when the name of Fred J. Meindl will occupy a notch far above the common office seeker. He is yet young and could well afford to write his name on the "roll of honor," as he did last Saturday. It always takes courage to launch a new party. Here is success to you, Fred.

We are not surprised at the strenuous efforts of the postoffice department at Washington to suppress the Appeal to Reason. It is a socialist paper, and they are frightened at its enormous circulation. Justice in Washington fled from that city the night Abraham Lincoln was assassinated, and has never been permitted to return to remain for any length of time. Be patient, justice, socialism is preparing to build you a permanent abiding place. If not in Washington somewhere else will do as well, for you shall rule the earth.

Birth—Born, to the citizens of Clackamas county, Saturday, December 21, a new party, on whose shoulders the government of the aforesaid county in due time shall rest. It was prophesied long ago that this new party should be born, and that its name should be the socialist party, and it came to pass according to prophecy; if it wasn't born in a manger, it was so near to one that all good Christians ought to have great respect for it. Its teachings will be so nearly like that of the lowly Nazarene that anyone reading them will be struck with their similarity. For full particulars, see this week's Courier-Herald.

Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.
