Barlow.

The last week's Courier-Herald came to hand exceedingly late, but the New Year edition made up for lost time. It is the finest thing of the kind that we have seen in Oregon. We haven, the time or talent to give it the just due. It It must be seen to be fully appreciated, and all , who wish to give Clackamas county a boom should buy several copies and send it to friends living in other states. The scenery is natural and grand.

We are baving very heavy rains this week.

Health is very good in this place, in fact Barlow is such a healthy locality that the children run and hide whenever a doctor rides through the town.

B. F Mitchel, of Nebraska, mentioned in the Courier-Herald last week, was no other than Mr Williams, of South Dakota, mentioned in your paper the week previous. You must excuse your in-formant as it was Christmas time, See! Mr. and Mrs. William Bond, daugh-ter and son, of Spokane, Wash., are visiting with Mrs.Bond's parents, Judga and Mrs. W. W. Jesse, for a few days. They have many friends in this county, but owing to the unpleasant weather they will perhaps be prevented from seeing only a few of them. George, never mind the Independ-

ent party, but get into the socialist har-ness, where you properly belong, and stop your prancing and pulling sidewise. We need you and need you now, and don't think for a moment that you can

the summer season of womanhood Nature allots about thirty years and then comes the turn of the season. Many a woman shrinks from this turning place, which she significantly names the "change of life." It is not simply the change of a season to her but the change of her whole life. Henceforth motherhood lies behind her. And sometimes she feels almost rebellious at the thought of such a change. At forty-five she feels herself in her prime; she is at her ripest and richest of mental and physical development. It seems as if the turn of the season came too soon,

But more than all else the healthy woman shrinks from the consequences which so often attend this change of life; the physical pain, the mental suffering, the gibbering spectre of insanity even casting a dark shadow across the future. But there is no need of alarm if women will take natural and intelligent precaution against such disastrous results. It is reasonable to suppose that such a great functional change should have far-reaching physical effects. It is also reasonable to assume that at such a time Nature may need some assistance.

The woman who realizes these facts, and seeks a simple but effective medicine to carry her safely through this trying and perilous period, will find all she needs for health and strength in Dr. Pierce's Favorite Prescription.

medicines for the last sixteen or eighteen years in my Poorhouse. I am superintend-ent of the Coffee County Poorhouse and Asylum combined. Your 'Favorite Pre-scription,' 'Golden Medical Discovery' and scription,' 'Golden Medical Discovery' and 'Pleasant Pellets' are the best medicines for the diseases for which they are recommended, that I ever used. They saved my wife's life at the time of 'change of life.' I also cured the worst case of lunacy that we ever had with your 'Favorite Prescription.' The case had been under the doctor's care for three years. I used your medicine about seven or eight months and the patient was as well as she ever was in her life. This was nine years ago, and she is still in good health. I have been recommending your medicine to many

It is hardly possible to exaggerate the benefits received by weak and sick women who in their distress have made trial of "Favorite Prescription." From the first change of life when the girl becomes a woman to the last change of life, and through all the intervening periods of wifehood and motherhood, "Favorite Prescription" preserves the womanly health and strength and cures womanly diseases. It establishes regularity and dries the offensive drains which undermine the strength. It heals inflammation and ulceration and cures female weakness. Moth-

Mrs. M. Barnes, of Balls Ferry, Shasta Co., Cal., writes: "My physician said I was suf-fering from the effects of 'change of life.' I had heart disease and uterine trouble and rheumatism. My head was so dizzy I could hardly stand up. When I began to use Dr. Pierce's medicines I improved right along. I took seven or eight bottles of the 'Favorite Prescription,' a teaspoonful three times a day, and the 'Pleasant Pellets' at night. I feel as well as ever I did. I take great pleasure in recommending Dr. Pierce's medicines to in recommending Dr. Pierce's medicines to suffering women. I think they are the best medicines in the world. I can't say enough in their praise. The 'Favorite Prescription' cured me after I had been sick for two years

so I was hardly able to be about." "I feel it my duty to write to you as I have received so much benefit from the use of your medicine," says Mrs. Lizzie A. Bowman, of New Matamoras, Washington Co., Ohio. "I New Matamoras, Washington Co., Ohio. "I have taken four bottles of 'Favorite Prescrip-tion,' for female weakness and 'change of life.' Before I began taking it I could not do any-thing. I had such pains in my head and in the back of my neck that I thought I would lose my mind. Now I can work every day. I recommend 'Favorite Prescription' to all females suffering in the period of 'change of life.' It is the best medicine I have ever found."

Curos Guaranteed, J. S. Carlisle, Esq., of Manchester, Coffee Co., Tenn., writes : "I have been using your in recommending your medicine to many afflicted women and have also guaranteed that if it did not cure I

would pay back the money spent for it. I have not once been called upon to refund. I think I have guar-anteed seventy - five or one hundred cases. Favorite Prescription' has no equal for diseases of women."

will generally correct this difficulty.

If you will put from onefourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.
