## Molalla.

The ground is covered with snow, the first time for several years, and all are complaining of cold weather.

The coyotes are getting to be quite numerous in this section. J. O. Dickey caught three coyotes on four nights. About 20 have been killed within the boundary of the club since it was organized. Jim Dickey has caught about one-half of them.

Some of our Molalla boys started to the mountains since the snow came in order to try their luck hunting and trapping coyotes, wild cats, cougar, etc. They will be all O. K. when they get there but will certainly encounter deep snow en route.

Perry Kayler and mother have returned from Philomath, where they have been visiting relatives. They left George Scott in a serious condition suffering from blood poisoning. He will lose some of his fingers.

A special school meeting was held at the schoolhouse yesterday for the purpose of voting a tax to paint the schoolhouse. The tax was voted so the house will be painted some time this summer.

Charles H. Bitzer was here a few days ago to bid his many Molalla friends goodbye. He is going to some joint in Washington to accept a position as president and foreman of one of the largest shingle mills on the coast. Charlie says that he has been searching for years to know just what he was suited and constituted for in life and at last he has found it. After a few weeks' work last season at making shingles he completely mastered the intricate art so those needing a first-class shingle should give him a call.

Whoever it was that held up Carl Callif one night recently at the muzzle of a six-shooter evidently made mistake. All that he will have to do is to try it again. He will shortly strike the right man, and we will then all know who the Molalla highwayman is. He had no mask on, but it was so dark that Carl could not recognize him.

O. W. Robbins and Frank Adams are building a new water wheel for Mr. Lehaan on the A. J. Sawtell place.

C. Ike Gipson is doing some carpenter work for Ralph Sawtell.

There is some talk of a grange being organized at Molalla. If it succeeds a fine hall will be built.

There is some indication that an administrator will be appointed to take charge of George Cannon's estate. He is not dead though but his dog is.

Mr. Cannon authorized L. W. Robbins to look after his property here, but it now seems that the famous speckled-rooster that furnished the town with eggs is being claimed by one W. H. H. Ram. According to a notice that was recently posted at the store, therefore, seeing that a portion of said estate is being claimed Mr. Robbins declines the responsibility of managing the property.

A grand ball will be given here on the night of February 14th. Tickets \$1 in clothing supper, at J. F. Adams.

## Young Girls

Are often engaged in doing the work of a home under the most trying conditions. Nature cries out against the stooping and lifting, the running up and down stairs at times when labor should be as light as possible. It is owing to overstrain or self-neglect under these conditions that the foundation is laid for serious womanly disease. Irregularity is the first step to impaired womanly health.

Perfect regularity may be established by the use of Dr. Pierce's Favorite Prescription. It will heal inflammation and ulceration and cure female weakness. It makes weak women strong and sick women well. "It gives me much pleasure," writes Miss Ella Sapp, of James-Lewis, Guilford County, N. C., "to thank Dr. Pierce for the great good received from the use of his 'Favorite Prescription' and 'Golden Medical Discovery.' I had suffered for three years or more at monthly periods. It seemed as though I would die with pains in my back and stomach. I could not stand at all without fainting. Had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but one bottle I felt better. Now I have taken two bottles of 'Favorite Prescription,' and one of 'Golden Medical Discovery,' and I am entirely cured, and in two months time when all other medicines had failed."
