"An attack of la grippe left me with a bad cough. My friends said I had consumption. I then tried Ayer's Cherry Pectoral and it cured me promptly." A. K. Randley, Nokomis, Ill.

You forgot to buy a bottle of Ayer's Cherry Pectoral when your cold first came on, so you let it run along. Even now, with all your hard coughing, it will not disappoint you. There's a record of sixty years to fall back on.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing. J. C. AYER & CO., Lowell, Mass.

CITY COUNCIL

GOVERNMENT BUILDING SITE. At the regular monthly meeting of the city council held Wednesday night, it was unanimously voted that the city's property on the bluff, above the Sixth and 7th street stairways, be donated as a site for the proposed government building. Congressman Tongue has introduced a bill in congress to appropriate \$60,000 for a government building in Oregon City to be used for a postoffice and United States land office. The committee to whom the bill was referred, recently communicated with Mayor Dimick and made inquiries as to what could be accomplished in the way of securing a site. The council proceeding in the matter will at once be forwarded to Washington. PORTABLE CEMETERY TENT. Rev. A. J. Montgomery was present, and was accorded the privilege of addressing the council. He called attention to the fact that a great majority of the deaths in this county occurred in the winter, and as a result, many of the burial services and interments were conducted in the pelting rain. Especially was this the case in the city cemetery. In attending the last and rites at the grave women were compelled to stand on the wet ground while the rain poured down in torrents, often contracting severe colds from the exposure. He too, had observed on several occasions, when fraternal orders were conducting ritualistic services the leaves of the open book were fairly soaked with the falling water. These conditions tended to make the make the burial services, which people must attend, very disagreeable. Cemeteries in some other cities have portable tents, which are placed over the grave in bad weather, affording excellent protection. The sexton could have the custody of the tent, and place it in position when needed. The motion to secure a tent passed unanimously, and the cemetery committee was authorized to make the purchase. It had been ascertained that such a tent could be secured at prices ranging from \$10 to \$25, according to quality. The tent will be paid for out of the cemetery fund. MISCELLANEOUS MATTERS. There was an unanimous remonstrance presented against the improvement of Adams street from Seventh to Fifth, the remonstrators claiming that they were now being heavily taxed for sewer improvements; also that the proposed improvement of this part of Adams street would cause all the traffic to pass through the residence portion of the city. H. M. Templeton, one of the remonstrators, was present and stated that if some of the other cross streets were improved, they would not object to the improvement of Adams street. On motion the petition was ordered laid on the table. Later notices of publication were ordered for the improvement of Washington and Center streets. Fred G. Gray was granted a saloon license to carry on business at Seventh and Railroad streets, and Kelly & Noblitt were granted a license renewal. Councilman Francis reported that a lot 25x50 feet could be purchased from Mr. Ely for an engine house on Molalla avenue for \$40. And further, if more ground was needed, it could be purchased at the same rate. The matter of the new engine house at Ely was then referred to the committee on fire and water. The street committee was authorized to secure the county rock crusher and grind up a lot of rock for future use. On motion of Sheehan the matter of erecting a band stand in the public square on the bill was considered, and was referred to the street committee for a report. The chief of police was ordered to notify Mrs. Newton to connect with the sewer on her property in sewer district No. 2; also notify J. T. Apperson and Mrs. Barlow, owners of the Phoenix building in district No. 1, that the penalty would be enforced unless sewer connections were made. There was no report on the condition of the imaginary rock pile, although several vagrants had been sentenced to work on the streets. The mayor announced the following committee appointments: Fire and Water-Francis, Koerner and Huntley. Cemetery-Story, Kelly and Albright. Health and Police-Powell, Albright and Koerner. No change as yet has been announced in the street committee.
