NEWS OF THE WEEK

Monday, February 10. Patterson, N. J., has a ten-million dollar fire. The blaze started from an electric wire in a car barn, and the business portion of the city was almost totally destroyed; also the finer structures devoted to commercial, civic, educational and religious use as well as scores of dwelling were burned. All the newspaper offices but one, were consumed in the flames carried forward by the wind. The fire started soon after midnight and continued to blaze during almost the entire day. No deaths occurred during the fire. Eleven persons were killed in the St. Louis fire. Dewet again escapes from Kitchener in South Africa, when it was thought that he was surrounded. Many Boers were captured by the British corolon. The famous Hindoo twins were separated by a surgical operation in Paris. Nelson Hoyt, a pioneer of 1847, is dead at Astoria. Charles W. Fulton, of Astoria, wants the republican state convention to endorse him for United States senator. County Commissioner Mack, of Multnomah county, has sued the Oregonian for \$50,000, on account of an article accusing him of selling merchandise to the county through the offices of a third party.

Tuesday, February 11. Theodore Roosevelt, jr., the oldest son of the President, is seriously ill at Groton, Mass., where he has been attending school. He is affected with double pneumonia. The President and Mrs. Roosevelt are both at the bedside of the sick boy. A practical start has been made toward erecting the monument in honor of the Second Oregon Volunteers at Portland. The design adopted is similar to a Gettysburg monument. A site for the monument is to be selected soon. Frank C. Andrews, vice-president of the City Savings Bank of Detroit, Mich., is arrested on the charge of taking \$1,000,000 from the bank. He is said to have gambled in stocks. Astoria politicians believe that Samuel Elmore, the wealth canneryman and proprietor of the Astorian, has gone East to work influences in his behalf for collector of customs.

Wednesday, February 12. In congress the house will pass the oleomargarine bill. Moody secures important amendments to the Indian appropriation bill. Vancouver barracks will remain permanent headquarters of the department of the Columbia. The tug Oswego is sunk at Oak Point. Dr. F. W. Harris, of Eugene, chairman of the first district congressional committee, has issued a call for that body to meet in Portland, February 20th, to fix a date for the state convention.

Thursday, February 13. Theodore Roosevelt, jr., is nearly out of danger. Vancouver barracks likely to be doubled in size to accommodate soldiers. Lincoln's birthday was celebrated in Portland with appropriate exercises. Lewis and Clark stockholders fail to get a quorum and will call another meeting. Portland retail butchers decide to raise the price of meats. Grant county stockman are alleged to have lynched a thief.

When the Chimney is choked with soot, the fire languishes and goes out. When the bronchial tubes are clogged with mucus, the flame of life flickers. Intelligent treatment with Allen's Lung Balsam brings up the phlegm, allays inflammation, stops the cough and pain in the chest and, in a word, overcomes those terrible colds which if neglected soon become consumption.

Bright's Disease. The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases. They commenced the series investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. ANGORA GOATS.

Mohair Profitable Even at Low Prices—Among the Weeds.

It is true that there is but little demand for mohair just now. My mohair was sold at 26 cents per pound, much lower than ever before, but the Angora goat industry is still a good business, even if we should not get over 20 cents per pound for mohair and 6 cents per pound for Angora mutton, and where we want weeds and brush killed the Angora goat is a great help. A few years ago the Colorado river washed away a great deal of my field fence and covered the bottom land with cockleburrs all along the river. It looked like a forest of cockleburrs. To save the crop I had to build a new fence, joining the river on the upper side of the field, so the goats could not keep down the weeds along the river inside of the field, but they kept all the cockleburrs eaten up clean as far as they could go. Last winter I hired help to beat down the ripe cockleburrs from the dead bushes inside the field and built a new fence of eight wires parallel with the river and opened the whole bottom to the goats this spring after shearing. At that time the cockleburrs and elder bushes had entirely covered the entire bottom for the distance of nearly a mile, and it looked like the goats would get lost in there, but after about two months I had the great pleasure to see that the bottom was as clean from cockleburrs and elder as pean gatherers may wish for.

But there is one weed that my goats do not like. It is the wild sage, and of the wild castor beans along the river they do not eat much. I think that sheep will eat wild sage, but do not know if they eat the wild castor bean. I hired help to keep down the castor bean, which the goats will do if there are not too many of them. I think it would be a good plan to keep a few sheep among the goats to keep down wild sage also, concludes H. T. Fuchs in Texas Farm and Ranch.

HAIRY VETCH. A Forage Plant Now in the Foreground For Fall Sowing. Hairy vetch is so much in the agricultural foreground just now that the accompanying sketch may not come amiss to those who have not seen the plant. It is a perennial or biennial from western Asia and has given such

fine promise in various parts of the United States as to elicit much approval. The seed is generally sown in drills, with some kind of grain to hold it upright. It is recommended to sow in fall—August to middle of September—for winter and spring forage. If sown with rye and successfully grown, it will give excellent feed at a time when there is usually a shortage. Wheat and vetch also furnish good green fodder in spring.

Morning Glories For Sheep Forage. Morning glories, the annual purple flowered kind, will yield 40 tons of green feed per acre, are drought proof and highly nutritious, equal to the best clover, and can be cut, cured and thrashed. I sow them all over my farm. Sheep annihilate them. They never go to water when they can get them. They can be sown in young cultivated corn and the whole cut up and shocked. They will cut five to seven tons of dry feed per acre.—J. C. Norton, Kansas.

Varied Crops and Irrigation. Growing a variety of crops lengthens out the irrigating season and enables the farmer to make better use of his continuous flow but even this does not even up the difference between maximum supply and maximum use. The greatest necessity is storage until the water is needed.

Things That Are Told. Economy in feeding gives prominence of being of permanent importance to stock raisers this fall and winter, and some farmers believe that shredding the corn fodder will be one great help in the matter.

Fertile farms and well kept fields are traditionally associated with sheep. The consensus of opinion in Kansas is unfavorable toward the policy of burning pastures. In special cases it may be wise to resort to burning, as for the destruction of brush, weeds or bunch grass.

The three varieties of macaroni wheat for seed in this country are the Nicaragua in Texas and the Arnautka and the Wild Goose in the Dakotas. Fattening eggs, fed all the alfalfa hay they will eat, will fatten on much less grain than without hay. Sorghum hay is good for hogs.

The essential thing in irrigating melons, according to Rocky Ford practice, is to keep the water confined to the furrow, reaching the roots only by percolation.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

A WORTHY SUCCESSOR. "Something New Under the Sun." All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. The powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also so readily quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE."

A Thousand Dollars Thrown Away: Mr. W. W. Baker, of Plainview, Neb., writes "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Charman & Co.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Charman & Co.
