**Homeseekers' Rates**  
This paper has been advised by Mr. A. D. Charlton, A. G. P. A. at Portland, that in connection with the homeseekers' rates from Eastern points to the Pacific coast for March and April, it has been decided by the Northern Pacific Railway Company to extend these rates through to all points on Southern Pacific lines between Portland and Ashland. This will undoubtedly result in a very material increase in our population, and the N. P. Company will do everything in its power to aid in the securing of a large number of people who now have their eyes cast on the west with the intention of permanently locating among us.

These rates will be placed in effect on March 1st and continue daily until April 30th. Tickets will be sold from all Eastern points basing on these rates from Chicago, St. Paul and Missouri river points and as a result, judging from the great number of settlers secured in previous years when these low rates were applied up to Portland only, it will undoubtedly add many settlers to the Willamette valley.
