

# Let Us Help Each Other

If I make the price of all drug store supplies so low that you can buy cheaper in Oregon City than in any other town in the State (Portland not excepted) will you stay with me? Many a good Clackamas county dollar has gone to Portland merchants because the price of some well known article was advertised at a ridiculously low price, perhaps at considerably less than cost, while you have purchased the one advertised article at cut price you probably have also purchased two or three other things on which a city merchant makes 25 per cent more profit than I do. Will you help me to prevent this hold up game? Do you ask how it can be done? Because every dollar's worth of stock that comes into this store is paid for the minute it arrives. Large purchases direct from the manufacturers, cash discounts, personal attention to every detail of the business, together with low rent and a large volume of business, makes it possible. I can and will meet every cut price besides saving you many dollars on the purchase of drug store necessities the price of which you know nothing.

I want to be honest with you and give you better prices and better goods than you have ever had before. Will you help me with your patronage on this basis?

IN THE SPRING the housewife's fancy lightly turns to thoughts of new home fittings. No matter what the weather man may say, in the minds of most of us the turning up of April on the calendar means the coming of Spring, and the coming of Spring means housecleaning to women-kind. It also causes us to take an inventory of our wardrobes, which, in the majority of cases, discloses the fact that it needs replenishing.

We have received new goods in all departments. The offerings are conspicuous for high character of the qualities and lowness of the prices.
