NEWS OF THE WEEK.

Friday, April 19

Bribery A charge of offering bribes Charged, to elect John L. Wilson, United States senator, has been filed against Clarence W. Ide, nominated for collector of customs for Washington, but whose name has been held up by request of Senator Foster, by the senate committee on commerce. An ex-member of the legislature, who served with Ide in that body, is said to have made the affidavit. The matter is expected to develop one of the greatest political sensations in the history of Washington.

Pacific coast representatives will accept the Platt substitute for the exclusion bill. General debate on the Cuban bill will close in the house today. Cushman, of Washington, attacked the committee on rules. Senator Morgan spoke for four hours on the canal bill. Democrats of the house in caucus decided to abolish the differential on refined sugar. In the Philippines trouble is expected with the date of Mindano. The senate committee continues the "water cure" investigation. The Belgian chamber will today vote on revision. A basis of peace between British and Boers is said to be agreed upon. Henry Weinhard will build a large building in Portland for wholesale purposes. Dr. Lee Poi Tei, the portland Chinese physician, charged with murdering his mistress, has been released.

Saturday, April 19.

For A State Labor Day. At the meeting of the federated trades council in Portland last night, a number of the local unions reported that they had appointed delegates to the convention, which will be held in Portland on the first Monday in May, for the purpose of organizing a state federation of labor. A telegram was received from special organizer Harry, who is now in Salem, stating that the printers, bricklayers, carpenters and stone masons of that city would send delegates to the state convention, and that a mass meeting of all wage earners would soon be held.

The house passes the Cuban relief bill by an overwhelming majority. The senate took up the Philippine government bill. China protests against the exclusion bill. Orders bearing on the conduct of the war were sent to the senate Philippine committee. There have been 651 cholera cases in the Philippines. A serious riot occurs near Brussels. The Port of Portland commission engage James E. Blackwell, of Seattle, to build drydock.

Sunday, April 20.

Multnomah The democratic city and county convention in Multnomah county assembled, completed the naming of its pro-rata of the citizens ticket. The following were named: State senator, Harry Lane; representatives—John A. Bushman, F. H. Curtis, Frank A. Heitkemper, M. O. Davis, Henry Fleckenstein and E. A. McPherson.

It is now assured that the Morris amendment removing the differential on sugar will be a part of and Cuban bill that may pass. This makes the outlook for relief for the island, anything but relief, although President Roosevelt continues to force the issue. The removal of the differential is a direct blow at the sugar trust. It is rumored that trouble is imminent between Chinese and foreign troops at Pekin. Pierpont Morgan has combined all the big transatlantic steamship lines. The federation of labor begins a campaign for the abolition of injunctions in labor disputes. The Oregon & Southeastern Railway Company is incorporated at Trenton, New Jersey, with a capital stock of \$1,000,000. Its object is to build railroads in Oregon. San Francisco street car men go on a strike. Open meeting called to organize direct nomination league at Salem. Roseburg is to have a good-sized creamery at once. Portland business men urge establishment of steamboat line to Alaska. Light has at last been thrown on the mysterious murder of young Nora Fuller at San Francisco in January. The suspect is O. B. Hadley, an accountant in the Examiner office for several years. The police have a very strong case against the man. The most important witnesses are a handwriting expert and the paramour of Hadley. He has been missing since the murder. This morning's Oregonian says that a water level route up the Willamette river as far as a point north of Sellwood is being sought, it is believed, by the Portland City & Oregon Railway. Several purchases of property have recently been made on the east bank of the river, that give strong color to the report. Officers of the company disclaim any such purpose.

Leprosy The Comercio, a daily newspaper published at Managua, Nicaragua, declared, in a recent issue, that leprosy had been developed to such an alarming extent among the people of Western Nicaragua, particularly in Leon and Chinga, as to cause a prominent newspaper of Leon to warn parents against permitting their children to go on the streets of the towns for fear of unknowingly coming into contact with lepers, all of whom are licensed to go where they please and beg. About 15 years ago it was estimated that the number of leprosy persons in Nicaragua was about 200. At present, the number beyond the secondary stage of the disease is placed at from 1500 to 2000.

Seventy-Five At least 75 lives were Perish. lost by the burning of the sterner City of Pittsburg, near Cairo, Ill. Fire was discovered at an early hour in the morning. The flames spread quickly, and a panic among the passengers helped to swell the list of victims. Survivors tell terrible tales of the disaster. Few of the passengers or crew escaped unhurt.

Frank B. Stockton, the well known novelist and story writer, died at Washington yesterday. He was born in Philadelphia in 1834. One of his most famous publications was the "Lady or Tiger?" Bad fires occurred at Dallas, Texas, and Kansas City. The Belgian strike has been declared. The Dutch cabinet will meet today to discuss the regency. A tentative agreement is said to have been reached between the British and Boers. The street car tie-up is said to be almost complete. Messrs. Schukert & Company, German electrical manufacturers, are shipping to the United States for exhibition a type-setting machine called the "electrotypograph," which is declared to be as much superior to the Mergenthaler machine as that machine is to hand typesetting. The machine is the invention of a Hungarian engineer named Rozar. From a perforated paper ribbon produced on an ordinary typewriter, the electrotypograph automatically casts and sets single type. The ribbon is capable of transmission by telegraph. It is said that the superiority of the new machine over the type in its ability to correct individual letters without re-setting whose lines; the capacity to create the ribbon on an ordinary typewriter; proofs before casting; setting and justifying the lines by touch; and a key. The speed of the machine is about equal to that of the linotype.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Smith's Dandruff Pomade stops itching scalp upon one application three to six removes all dandruff and will stop falling hair. Price 50c., at all druggists.

The safest and easiest remedy for kidney and bladder diseases is Foley's Kidney Cure, Charman & Co.

Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman of Montmorency, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. I is effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar and always with satisfaction." Charman & Co.

A Hurry-up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies; when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Its mission of mercy began sixty years ago. It is used in all countries. There is but one Painkiller, Perry Davis'.

All kinds of bicycle repairing, lock work and saw filing at Johnson & Lamb's bicycle shop, opposite Barlow's grocery. Give them a trial and be satisfied.
