If everybody is not satisfied when a decision is reached, it will not be because the management has not given the question painstaking and disinterested consideration.

Sunday, April 27.

**Oregon Yesterday** was "Oregon Day" at the Charleston Exposition, and one of the most interesting, thus far, of South Carolina's great fair. Representative Tongue delivered the principal address, speaking on expositions in general, from an educational standpoint. He held that great practical commercial results may be attained by closer friendship and knowledge of individual wishes and desires. Commissioner H. E. Dosch spoke on Oregon's relationship to South Carolina in a manner which brought forth great applause. His tribute to the city of Charleston, and words of thanks for the hospitality extended Oregon people, were pleasingly presented. Albert Tozier spoke of Oregon's advancement, her resources, enterprises and possibilities, explaining the way the northwest was to have a great exposition in 1895, and that its success was assured. Mr. Tozier's subject, "Lewis and Clark Centennial," appealed to the people, and his remarks were received with much applause. The band played the Second Oregon Volunteers and several Southern airs.

**The Odd Fellows** and Daughters of Rebekah yesterday dedicated the L. O. F. F. home, near Kenilworth, with appropriate ceremonies. The morning exercises were held on the grounds, and in spite of the pouring rain, were largely attended by members of the two orders. In the afternoon local and visiting members were entertained at a reception at the L. O. F. Temple. In the evening the exercises celebrating the 83rd anniversary of the founding of Odd Fellowship were celebrated in the First Baptist church.

**Senator Foster** appears to have won a great victory in the fight for dictator of the Federal patronage of Washington. This means Clarence Ide will not be collector, and Jesse Frye, of Whatcom, will be attorney-general. Frye may be appointed at once. At any rate, Foster is to have his way. Frye's persons were killed and wounded in riots at Moscow. George T. Myers, the veteran salmon packer, disposes of his Puget Sound interests. W. J. **J. Sterling Morton**, of Nebraska, ex-secretary of agriculture, died at the home of his son at Lake Forest, near Chicago, yesterday afternoon. ## Buffalo Bill is Coming.

The announcement is made that Buffalo Bill's Wild West, led by Col. W. F. Cody himself, will this season, and for the first time in its history, make a complete tour of the American continent—from ocean to ocean, East to West; from the Zenith City in the north to the Gulf of Mexico in the south. This itinerary will take the great organization through much of the territory where its wild scenes are laid, and for that matter bring to their very birthplace the incidents it has so aptly illustrated in other parts of the world. A trip to the Pacific Coast has long been contemplated and now that Messrs. Cody and Salisbury have concluded to go to Europe again this fall, they have determined to pay a parting salute to America and will, as stated, cover the entire country this season.

## Have We a Game Law?

If Mr. Quimby was in the vicinity of what is known as High Hill, two or three miles south of Wilhoit, he would surely say there is no law to prohibit the chasing of deer with hounds. This is almost an every day occurrence, especially on Sunday. Hounds are kept at a logging camp near the junction of Coal and Butte Creeks and are allowed to run at large. The consequences are they are chasing deer nearly every day, as there are quite a number of deer in that vicinity. Now, any person acquainted with the habits of the deer knows that it is the female and not the male deer that comes down in the foothills in fawning time, which has commenced, or will soon. No one can fail to see the damage done by bounding at this time of the year, more so than any other part of the season.

A few days ago a well-known man of this place, happened along Butte Creek in the vicinity of the above mentioned camp and saw a deer standing in the stream, and he was tempted to shoot it, but passed on and called at a neighbor's house, where he was informed that the boys of the camp had gone out to chase some deer. This put a new desire in the man to kill the deer, and returning to the same place (he having been gone about an hour), found the poor exhausted animal still standing in the same place and killed it. It had been chased by the hounds likely for several hours till it had eluded them and was trying to get a little rest. Now, if we have a law prohibiting the chasing of deer with hounds, we should have some of it in the vicinity of Wilhoit. If Mr. Quimby has not received donation enough from the state to send out deputies enough to watch our game, why can't the county send someone to investigate places where deer are, and we hope, it will in the near future. ## Literary News.

A series which should have been named "The Enchantment of our Modern Aladdins," if considered solely from the point of view of romance, is begun in the May Cosmopolitan. But these sketches possess as well a business interest equally for clerk and capitalist, for manufacturer, farmer and merchant. The man who would understand the drift of our news in finance and business must read these lives, so full of incident, of chance, of hard labor and marvelous success. As it is, the series receives only the common-place name of "Captains of Industry." Each character is treated by a noted writer familiar with his subject.

The May number of Everybody's Magazine opens with a most interesting article by Dr. Henry Gannett on "Famous American Mountains," superbly illustrated with photographs of the notable peaks of the Rockies, the Sierras and the Alaskan Range. Especially timely is T. P. O'Connor's estimate of Cecil Rhodes—the "Napoleon of South Africa." It is a skillful character study, representing the curious admixture of traits which make Mr. Rhodes the great personality of his period. Another valuable contribution is Dr. H. W. Wiley's "Man as a Machine," in which the functions of the human body are compared with mechanical process.

**The Best Prescription for Malaria**  
Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

### 20th Century.

**Beaver Lake.** Again happy Jack comes to the front to let the world know that Beaver Lake and its people are still on the map. William Miller, of Rock Creek, was seen in our midst a few days ago. Homer Williams was doing some broncho breaking in this section one day last week. The small pox scare has struck us fever hot. Mrs. James Milledale intends to work at the Wilhoit hotel the coming summer. Word comes from Eastern Oregon that Mrs. M. A. Nicholson, a former resident of this place, is tending coming back as soon as she can cross the mountains. This speaks well for Wilhoit if it does not give the date of six. G. T. Slaughter, Wilhoit's well known freighter, has purchased a new wagon. Mrs. E. Vorhies was transacting business at Molalla a few days ago.

Thomas Slaughter, a well-known and highly respected young man of this burg, has purchased a farm. Look out, girls, Thomas has his eyes open, and a red-haired rustler is bound to make a killing. He has the "dough," Hattie! Raymond Wyland hauled in a load from Scotts Mills one day last week, and reported the roads a little "tough." L. J. Nicholson contemplates peeling chittum bark this summer. Dr. Pyrie, of Scotts Mills, who has recently moved into our burg, discovered a new and wonderful remedy which beats Dewey's Little Early Riser. It is a positive cure for the following complaints: Headache, toothache, liver and kidney troubles. It is free from all poisonous matter perfectly harmless. He says it can be found in almost every locality in Western Oregon. Give him a trial. G. W. Wyland and son are busy getting out telephons poles. Roy Baxter, a well known logger of Butte Creek, was seen in this burg a few days ago wearing a broad smile looking for a young lady to do housework. What's the matter? H. Wilson was seen diligently using a saw and ax Sunday. I guess he is an Alaskan. George Harbort, of Molalla, was usual a visitor in our burg last Sunday. Little Ray Nicholson, who has been seriously ill with la grippe, we are glad to report is improving. Jack Grosberg has been improving the looks of his ranch by adding some new fence. HAPPY JACK.
