HERE is not a crack on the stump by our friends, the prohibition candidates: Vermont, a prohi state, has 698 "blind tigers," or one to every 565 of the inhabitants; Georgia, under local option, one saloon to every 1503 of the inhabitants.

Seves men, Harriman, Vanlerbilt, Morgan, Cassett, Gould, Hill, Belmont, control, under the combination they have formed, 108,664 of the 190,000 miles of railroad in the United States, and sixteen steamship lines with a tonnage of 1,200,000. The capital stock of all the railroads is six billions, of which the combiners own over half, and the value of the steamships in the combine is \$450,000,000.

For a party who claim 15,000 majority in the state, the republicans are evidently badly scared. It has come down to importing carpet-bag speakers from Iowa. One Victor B. Dulliver is the first star to appear and instruct the people how to vote. Carpet-bag oratory has never proved a success in Oregon with either party. In fact, the people of Oregon need no outside interference in that which concerns themselves and not Iowa.—Dispatch.

"FRANK BAKER, who wins a barrel of money every year baiting an election, will again waver quite a stake this time. Mr. Baker does not jump at conclusions. He has friends in every county in the state, and just before he places any money he writes them and ascertains the situation exactly. He has written to his friends and now he is of the opinion that Chamberlain is a sure winner. He says that unless the republican managers can stop the wave of enthusiasm for Chamberlain, Furnish will be defeated. At any rate he intends to bet on Chamberlain.—Welcome.

IN A TANGLE.

THE Oregonian is getting into a terrible tangle about the 1905 Fair. It wants Mr. Furnish, as Governor, to preside because he can't make a speech, and Judge Williams, as Mayor, to preside because he can't do anything else but make a speech. It don't want George Chamberlain to preside because he is urbane, accomplished and polished and it don't want Bob Inman because he is bluff and lacks grace. Perhaps the whole matter will settle itself by simply considering that we are not electing men to preside at the Fair, but a Governor of Oregon, and a Mayor of Portland, who will each have much more important duties to perform than the mere ceremonial of the Exposition. But, taking the two officers together, even in the matter of ceremony, we submit that our pair beats your pair.—Journal.

POLITICAL NOTES.

Banker Furnish's number is 13 on the official ballot. It will no doubt prove an sticky number for him.

Vote yes for initiative and referendum amendment to the constitution and take lawmaking power out of hands of politicians. It's part of your platform. Vote yes for No. 106.

If you want to vote the straight democratic state ticket put an X after the following numbers: 12, 17, 22, 23, 29, 32, 34, 40 and 42. If for citizens' county ticket put an X after the following numbers: 45, 48, 50, 56, 57, 58, 65, 72, 74, 77, 81, 86, 91, 96 and 106, initiative and referendum.

The initiative and referendum amendment is number 106 at the bottom of the ballot. Mark your X between the number and the word no if you vote against it. Do not forget this. It is the last thing on the ballot. Make your first vote for it.

In voting for men to fill the county offices you should choose the men fitted for the positions and also those you know will economically administer the affairs connected with their respective offices. Several of the candidates on the citizens' ticket have already held office and have proven their worth, and voters should not vote for untried men when a tried one is up for the same office.

Vote the democratic state and citizens' county tickets.

Republicans are still circulating the report that Sheriff Cooke is depositing money in the Oregon City banks, and in face of the official denial by both banks and officials.

The republicans realize that the reelection of County Clerk Cooper is almost certain and are now claiming incompetency and extravagance, when it is well known that Mr. Cooper has made a most economical clerk despite the extra work imposed upon him by new laws. For the past two or three weeks he has been working until nearly midnight every day to get registration and election business ready for June 21 without expense to the taxpayer. Not many would do this.

The socialist nominee for county treasurer did not file his acceptance until too late to get on the official ballot. Now it's in line for someone to say that he was bought off. We have personally known Mr. Richards for twelve years and we can vouch for his honesty and uprightness in this as well as other matters.

The Enterprise is still claiming the county indebtedness is but \$100,000 (bad enough), but we still maintain that the county is nearly \$200,000 in debt and besides a year behind. By juggling with figures you can make the indebtedness figure but \$102,000, but we still have about \$185,000 (including interest) of county warrants outstanding. The amount has been constantly increasing for several years. What good does a little figuring on paper amount to when we still have the warrants outstanding? All money on hand April 1st has been used to take up warrants, and we still owe over \$15,000 on our state tax.

The present campaign has been one of the cleanest in the history of the county. The newspapers have refrained from publishing anything bordering on "mud-slinging," and we believe the voters appreciate their efforts.

The cartoon entitled "A Misfit Governor," first published in this paper several weeks ago, is again published this week. The drawing was originally made by a promising young lawyer and politician of Oregon City, and the idea was original. This cartoon was considered the best one published in the state, and the democratic state committee furnished the same to all newspapers that believe in reform.

It is conceded by all, even republicans, that George E. Chamberlain will be the next governor of Oregon. Bets are being made in Portland that he will have 5,000 majority.

On another page we publish a short sketch of each of the citizens' candidates.

It is reported that a lot of campaign dodgers will be issued on or before election day to be circulated at the polls. Voters should not believe all the stuff of this kind circulated at the eleventh hour.

The Salem Journal published last week a write-up of Senator Brownell with a characteristic cartoon.

Vote for C. W. Risley for commissioner. This is the most important office, to our notion, in the county.

The citizens' ticket will no doubt carry in Portland and Multnomah county, and if it does, will elect Richard Scott, of Milwaukie, and W. F. Young, of Pleasant Hill. Mr. Scott, who has always been a republican, will get a large number of the straight republican votes.

NO POLITICS IN THE FAIR.

The position taken by the Hon. H. W. Corbett, president of the Lewis and Clark Centennial Corporation, clears up the matter of connecting the Exposition with politics. His letter to the Portland Evening Journal eliminates the troublesome element of partisanship which threatened to ruin the prospects of the great Exposition.

Mr. Corbett speaks with authority upon the subject. He has led the movement for the Fair's success with a liberal subscription and the contribution of more valuable assistance in the form of superior knowledge and executive ability. He stands as the sponsor of the enterprise, and represents in large degree the hopes of the people of this state and city that the Lewis and Clark Centennial will be instrumental in forcing Oregon to the front and building up its future.

The Journal urges that the Fair be supported heartily from this time onward until the gates swing open to admit the throngs who come to see the exhibits in 1905. Let the people of Portland continue their efforts. Let the people throughout the state co-operate with those of that city. And let every person within the bounds of the commonwealth lend a hand to the end that success may crown the efforts of those who are laboring so zealously for the good of the people of this region.

CHAMBERLAIN NOT A GRAFTER.

THE Oregonian nor the republican campaign orator have charged that George E. Chamberlain ever took a cent of compensation in public office, but what the law clearly fixed as salary.

Mr. Fulton, who is making the state campaign for Mr. Furnish, does not pretend that Mr. Chamberlain has ever taken a dollar in the way of graft while in office.

When the people of Oregon reflect on what has been the almost uniform custom among partisan politicians they must conclude that there is something to Mr. Candidate Chamberlain.

He has been tried in the legislature, as district attorney here and at Portland and as attorney-general, and he has done his duty, and has not joined in the general disease of looting the public.

Isn't he about the kind of a man to put at the head of the government as an antidote to this disease?—Salem Journal.

OREGON now has 80 subordinate granges with a membership of 3685—1215 gained in the last year; also five Pomona Granges and one Council. The increase of Granges over the past twelve months was 22.

That Boasted Prosperity.

Editor Courier-Herald: Can nothing be done to counteract that prosperity howl? The amount of a mortgage tells the prosperity of a farm, a precinct and county. There was no mortgage in this precinct during Cleveland's administration, but there are three now. If the prices of produce are better so everything we buy. In 1894 I bought nails at \$1.50, which are now \$1; salt then 35 cents, but is now 55 cents, and so all along the line, with the exception of sugar. I can't see that any one is better off than before; if they are, but let them come and show their assessment—that will tell. People that do not know what day their mortgage may be foreclosed will cry "Hurrah for Prosperity," if the tumpers tell them that they are rich. George, May 22.

That Road Question.

Editor: I saw in your paper sometime ago an article from Highland, setting forth a request as to what the writer wanted in regard to public roads and asking that commissioners and legislative candidates express their views as they, the voters, would withhold their support from any one not agreeing, and asking that the county commissioners finish same road to Springwater regardless of cost. Ist. If I thought that this would gain me every vote in Highland precinct, I would not write it. 2nd. I have waited in vain for some of the other candidates to answer said article, but let us suppose that they will make their position known, as they are making a personal canvass. Now as it is impossible for me to do any campaigning, I ask for space to say a few words. As to building roads, let us do it by taxation, but only as we have the money on hand to pay for said road building, as I am opposed to the county increasing its debt.

Another thing that does not seem fair: The people ask that their road be extended without taking in consideration any other part of the county, and it seems that the more money is spent on the roads in the eastern part of the county the more they want. I live sixteen miles west of Oregon City, and can travel within 1 1/2 mile of town before I strike either plank or gravel road. The roads are all dirt; and in the winter you all know how they are. We have not as much money in our own district for the improvements of the roads for the last five years, as we did eight years ago, and I am sure we pay as much taxes as we did then. So our money must be used to plank and gravel the roads in some other precinct. So, I say, give us good roads, but let the other fellow have a part of them especially when he pays his part of the tax.

In our district we don't get planks enough for culverts, so when is our time coming for a plank or gravel road?

Now, this to the voters of Highland precinct, not that I am asking for your votes, but as to what is right between man and man: Build our roads by taxation, pay as we go, treat all parts of the

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 3227 N. Clark Street, Chicago, Ill., as follows: "As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents. I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health. I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER.

"Builds up the System."

Hon. Joseph H. Ridgeway, Secretary of the American Anti-Treat Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.:

"It is with great pleasure that I endorse Peruna as an honest medicine, competent to do all it claims. I have used it several times and know of nothing that cures so completely, and at the same time builds up the system. I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—it would save much sickness and doctor bills."—Joseph H. Ridgeway.

"Feel Better Than for Five Years."

Mr. James B. Taylor, Roberts, Ind., writes: "I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have doctored with other doctors off and on for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to."

Mr. J. W. Pritchard, Wolf Lake, Ind., writes: "I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before I would get half through my meal my stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna.

"It has been one year since I was cured, and I am all O. K. yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
